Re: FCC Class II Permissive change for FCC ID: BY4WTR3000

Dear Examiner,

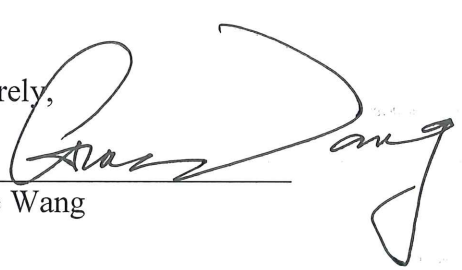

This is to request a Class II permissive change for FCC ID: BY4WTR3000, originally granted on 09/02/2015.

The major change filed under this application is:

Changing from using the PCB trace antennae to using two external antennae attached to the back side of the device.

The RF section of the PCB is the same as before, the change is implemented by slightly changing the antenna filters and adding two RF sockets for the connection of the cables to the external antennae sockets. The Antenna sockets are RP-SMA, so to fulfil the antenna requirements of 15.203

Sincerely,

Grace Wang
