Subject: Class II Permissive Change for FCC ID: C3K00002101

To Whom It May Concern:

This is to request a Class II Permissive Change for limited modular approval FCC ID: C3K00002101, originally granted on 03/26/2025 with C2PC on 4/29/2025.

The intent of this application is to enable the modular certified FCC ID to be integrated in Microsoft Portable Computing Device Model 2150, subject to portable category SAR conditions. The module installed into this device is mechanically and electronically equivalent to the original certified module. The device uses antenna gains that are lower than the peak gains mentioned in the module application.

Radiated Spurious Emissions (system level), band edge data and SAR test data is being submitted with this application according to the FCC guidance for Integration of limited modular transmitter.

Sincerely,

A handwritten signature in black ink that reads "Michael C. Boucher".
