Subject: Request for Confidentiality for FCC ID: C3K00002102A

To Whom It May Concern:

This is to request a Class II Permissive Change for limited modular approval FCC ID: C3K00002102A, originally granted on 6/18/2025

A C2PC was previously issued on 7/15/2025 to enable the modular certified FCC ID to be integrated into Microsoft Portable Computing Device Model 2119, subject to portable category SAR conditions.

The intent of this application is to enable the modular certified FCC ID to be integrated into Microsoft Portable Computing Device Model 2119, but with some SAR power reductions as compared to the C2PC issued on 7/15/2025. The module installed into this device is mechanically and electronically equivalent to the original certified module. No hardware changes have been made to Model 2119 from the original C2PC. No software changes have been made to Model 2119 from the original C2PC other than some reduced Wi-Fi SAR power table settings.

Sincerely,

A handwritten signature in black ink that reads "Michael C. Boucher".

Michael Boucher
