Setting up your Surface Pro 4

1. Get ready

To set up your Surface Pro 4, we recommend you have:

- Wi-Fi network access (and the password if it is secured).
- A Microsoft account (use an existing account, such as Hotmail, Outlook.com or Xbox, or sign up during setup).

For more information on the benefits of using a Microsoft account with Surface, visit windows.microsoft.com/account

3. Sign in

Follow the on-screen instructions and enter (or sign up for) your Microsoft account info when prompted.

4. Complete Setup

Your Surface Pro 4 is going to take a few minutes to complete the setup process.

2. Set up

- Flip out the Kickstand -Place your thumb in the groove on the side of the device and push out to engage the Kickstand
- Click in the optional keyboard cover
Use the keyboard cover flat on tables or fold the keyboard edge against the screen for better stability on your lap.
- Plug in the power supply and tap the Power button (wait a few seconds for text to appear on screen)
- Take your Surface Pen out of the box, then press and hold the top button for 5 seconds and you will see a white LED flashing on the Pen - now the Pen is in pairing mode and you can continue on-screen set up.

5. Important Software Updates

Updates to Surface and Windows are released regularly to improve performance. Your Surface Pro 4 will automatically download updates during the setup process and in the first few days you are using Surface Pro 4.
