FCC ID: C5F7NF6NMO700N

A detailed view of the internal components of a white electronic device, possibly a power supply unit. The unit is open, revealing a complex arrangement of wires (red, blue, green, black) connected to various components. A large, rectangular, silver-colored metal component, likely a transformer, is prominently displayed in the center. It has a label that reads "DAEWOO", "R1122B", "5032640", and "CAUTION". Below the transformer, there are several yellow and black capacitors. The entire assembly is housed within a white plastic casing, and the background shows a wooden surface.
