CANADA: to be provided

FCC /IC ID LABEL

The below shown label (polyester, opaque white) will be in black print and permanently attached on the outside of the plastic case of the transmitter. See next page for location.

Full size

200% size

The following statement will be printed in vehicle operator's manual:

This device complies with Part 15 of the FCC Rules and with RSS-210 of Industry Canada.
Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
