Hi Alice,

I have forwarded for technical review. However, there are a couple of things.

1. Confidentiality Letter - It does not have the FCC ID on it. Please revise and resend.
2. 15.19 Statement - I realize it appears in the manual. You will need to also send a separate request that the FCC allow this to be placed in the manual and for what reasons. Normally they insist on this being on the label if the device is larger than the palm. This looks pretty small, so please just send a statement to me.

Thanks.

Marianne
