

VX5 HD Indoor
Camera
Installation Guide

Online Guides
www.resideo.com

Included in the Box

Camera

Mounting Bracket

12V Power Adapter

Wall Anchors

Wall Screws

Tools you will need:

Phillips #2 screwdriver

Home Wi-Fi Password

You may need:

1/4 in (6mm)

5/8 in (16mm)

Drill

IMPORTANT: Before Installation

End-user operation requires an account and a mobile app. See **setup** requirements below:

1. Read these instructions carefully; failure to follow the instructions can damage the product or cause a hazardous condition.
2. Check the product information to see if the product is suitable for your application.
3. Installer must be a trained, experienced service technician.
4. After completing installation, use these instructions to verify the product's operation.

Connectivity

The camera supports Wi-Fi connectivity. Continuous 2 Mbps upload or faster Internet connection is required.

Note: Verify a minimum signal strength of -65dBm at the installation location to ensure reliable and timely video transmission

Use the app for step-by-step install and
setup instructions.

- From the App, add the device from the menu or camera screen.
- Select the correct device
- Follow the in-app instructions.

Or continue steps 1 to 4 below...

Steps 1-3 may be skipped if not mounting to wall or ceiling.

1 Mounting Installation

1. **Drill Hole Through Mounting Surface**
The recommended drill bit size is 5/8in (16mm) or larger.

2. **Align and Install the Mounting Bracket**
Align the mounting bracket's center opening with the hole you drilled.

Screw the mounting bracket to the surface with the screws provided. If necessary, use the included wall anchors.

2 Cable and Power Installation

3. Route the included power adapter cable from the intended wall outlet to the install location. Do not plug the power adapter into the wall at this time.

3 Camera Installation

4. **Route Cable Through Drilled Hole**

Route the cable through the hole drilled previously. Make sure the cable doesn't retract.

4

5. **Connect Cable to Device**

Connect the cable to the back of the camera.

6. **Attach Camera to the Mounting Bracket**

Align and snap the camera to the mounting bracket while routing the cable through the drilled hole.

5a

7. **Position Camera**

Position the camera to point at the desired area. Ensure the First Alert logo is positioned correctly.

6

7

Note: For best night vision quality, avoid placing objects within 4 inches of the camera or placing the camera too close to a wall or reflective surface.

4 Connecting to the App

1. Connect the power supply.
2. When the power is on, wait for the LED to flash blue. This indicates BLE pairing mode.
3. Follow instructions in the app to complete setup.

Note: Mounting Bracket Installation

If the device is not being mounted onto a wall or ceiling, install the mounting bracket into the base of the device before placing it at the intended installation location.

Troubleshooting

Removing the Camera
To remove the camera from the mounting bracket, press into the side of the mounting base with a flathead screwdriver or similar tool.

Accessing the Reset Button
The reset button is located on the side of the device as seen below right.*

Camera does not Power On
If the light does not come on, check that the power is on and the correct cables are connected.

Forced Reboot
To force reboot for any reason, press the Reset button for 5 seconds.*

Factory Reset
To factory reset for any reason, press the Reset button for 25 seconds until the Status LED turns red.*

Camera not in Pairing Mode
If the blue light does not illuminate, press the reset button for 10 seconds to initiate pairing mode.

*If you are still experiencing issues, follow the setup instructions in the app

Lighting Functions				
Light On Device	Light Color	Light Behavior	Device Status	Note/Resolution
 LED	Installation			
	White	Slow Pulse	Camera is starting. Bluetooth pairing will begin automatically.	Follow in-app Bluetooth pairing instructions
	Blue	Slow Pulse	Bluetooth Pairing	
	Blue	Solid	Wi-Fi pairing and registration	
	Red	2 Rapid Pulse	Error/Setup Fail	Follow in-app Troubleshooting
	Green	2 Rapid Pulse	Success/Confirmation	
	No Light		No Power	Check wiring connections
	In Use			
	White	Solid/Dim	Idle. Capturing and processing images	
	White	Solid Bright	Event Detected. Clip Recording	
	White	Pulsing	Firmware Update	Wait for update to complete
	Green	Solid	Live Viewing and Two-Way Audio	
	Yellow	Solid 5 Sec	Forced Reboot (Reset button pressed)	Two-Way Communication activated in Live View*
	Red	Solid 5 Sec to Cycle	Factory Reset (Reset button held)	
	No Light		No Power or Lighting Disabled	Lighting may be disabled in the app
				* LED will also turn solid green when the camera Live View is being watched in TC2

Note: "In Use" lighting may be disabled through app settings. Ensure the device complies with local laws and regulations.

Camera Specifications

Part Number.....CAMW-WI
Operating Temperature.....32°F to 104°F (0 °C to 40 °C)
Operating Humidity.....10 to 85% Non-condensing
Shipping Temperature.....-4°F to 158°F (-20 °C to 70 °C)
Shipping Humidity.....10 to 95% Non-condensing
Physical Dimensions.....2.57 x 2.52 x 5in (65.2 x 64.0 x 88.9mm)
Weight.....5.2 Oz (147g)
Color.....White
Power Input.....12VDC
Connectivity.....Continuous 2 Mbps upload or faster, minimum -65 dBm required

Technologies	Operating Frequency Range (MHz)	Max. Transmit Power (dBm)
Bluetooth BR/EDR	2402-2480 MHz	9.76 dBm
Bluetooth LE	2402-2480 MHz	8.20 dBm
WLAN 2.4 GHz	2412-2472 MHz	19.98 dBm
WLAN 5 GHz	5180-5240 MHz	22.98 dBm
WLAN 5 GHz	5260-5320 MHz	19.94 dBm
WLAN 5 GHz	5500-5700 MHz	19.97 dBm
WLAN 5 GHz	5745-5825 MHz	13.96 dBm

FEDERAL COMMUNICATIONS COMMISSION & ISED STATEMENTS

The user shall not make any changes or modifications to the equipment unless authorized by the Installation Instructions or User's Manual. Unauthorized changes or modifications could void the user's authority to operate the equipment.

CLASS B DIGITAL DEVICE STATEMENT
This equipment has been tested to FCC requirements and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- If using an indoor antenna, have a quality outdoor antenna installed.
- Reorient or relocate the receiving antenna.
- Move the radio or television receiver away from the receiver/control.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC / ISED STATEMENT
This device complies with Part 15 of the FCC Rules, and ISED's license-exempt RSSs. Operation is subject to the following two conditions:
1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Cet appareil est conforme à la partie 15 des règles de la FCC et exempt de licence RSS d'ISED. Son fonctionnement est soumis aux conditions suivantes:
(1) Cet appareil ne doit pas causer d'interférences nuisibles. (2) Cet appareil doit accepter toute interférence reçue y compris les interférences causant une réception indésirable.

RF EXPOSURE STATEMENT:
The antenna(s) used for this device must be installed to provide a separation distance of at least 7.8 inches (20 cm) from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter except in accordance with FCC and ISED multi-transmitter product procedures.

MISE EN GARDE EXPOSITION AUX FRÉQUENCES RADIO:
La/les antenne(s) utilisée(s) pour cet émetteur doit/doivent être installée(s) à une distance de séparation d'au moins 20 cm (7,8 pouces) de toute personne et ne pas être située(s) ni fonctionner parallèlement à tout autre transmetteur ou antenne, excepté en conformité avec les procédures de produit multi transmetteur FCC et ISED.

WIFI 5GHz device Warnings
For UNII Band device: (Section 15.407)(c)
The device shall automatically discontinue transmission in case of either absence of information to transmit or operational failure.
For DFS Band:
This device is slave equipment, the device is not radar detection and not ad-hoc operation in the DFS band.

Caution
(i) the device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems;
(ii) the maximum antenna gain permitted for devices in the bands 5250-5350 MHz and 5470-5725 MHz shall comply with the e.i.r.p. limit; and
(iii) the maximum antenna gain permitted for devices in the band 5725-5825 MHz shall comply with the e.i.r.p. limits specified for point-to-point and non point-to-point operation as appropriate. High-power radars are allocated as primary users (i.e. priority users) of the bands 5250-5350 MHz and 5650-5850 MHz and that these radars could cause interference and/or damage to LE-LAN devices.
Les utilisateurs devraient aussi être avisés que
(i) les dispositifs fonctionnant dans la bande 5 150-5 250 MHz sont réservés uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux;
(ii) le gain maximal d'antenne permis pour les dispositifs utilisant les bandes 5250-5350 MHz et 5470-5725 MHz doit se conformer à la limite de p.i.r.e.;
(iii) le gain maximal d'antenne permis (pour les dispositifs utilisant la bande 5725-5825 MHz) doit se conformer à la limite de p.i.r.e. spécifiée pour l'exploitation point à point et non point à point, selon le cas. De plus, les utilisateurs de radars de haute puissance sont désignés utilisateurs principaux (c.-à-d., qu'ils ont la priorité) pour les bandes 5 250-5 350 MHz et 5 650-5850 MHz et que ces radars pourraient causer du brouillage et/ou des dommages aux dispositifs LAN-EL.

This equipment should be installed in accordance with National Electrical Code, NFPA 70, Standard for the Installation of Residential Fire Warning Systems, CAN/ULC-S540 and Chapter 2 of the National Fire Alarm Code, ANSI/NFPA 72 (National Fire Protection Association, Batterymarch Park, Quincy, MA 02269). Printed information describing proper installation, operation, testing, maintenance, evacuation planning, and repair service is to be provided with this equipment.

Canadian Installations
For Installation in Canada, wiring shall be in accordance with CSA C22.1, Canadian Electrical Code, Part I, Safety Standard for Electrical Installations ; CAN/ULC S302, Standard for the Installation, Inspection and Testing of Intrusion Alarm Systems; and CAN/ULC S301, Standard for Signal Receiving Central Intrusion Alarm Systems and Operations.

Any attempt to reverse-engineer this device by decoding proprietary protocols, de-compiling firmware, or any similar actions is strictly prohibited.
The product should not be disposed of with other household waste. Check for the nearest authorized collection centers or authorized recyclers.
The correct disposal of end-of-life equipment will help prevent potential negative consequences for the environment and human health.

The adaptor shall be installed near the equipment and shall be easily accessible.

CE
Hereby, Resideo declares that the radio equipment type CAMW-WI is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: www.resideo.com

UKCA
Hereby, Resideo declares that the radio equipment type CAMW-WI is in compliance with the essential requirements and other relevant provisions of the Radio Equipment Regulations 2017.
The full text of the UK Declaration of Conformity may be found at the following internet address: www.resideo.tw

This device operates in the 5150 – 5350 MHz frequency range, and is restricted to indoor use only. Outdoor operation in this range is prohibited.

RF Exposure warning
This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons. End-users and installers must be provide with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.
