Pittsburgh, PA 15251-5315

To Whom It May Concern:

The enclosed form and engineering report are submitted for certification of Thales' Ultimate UHF-series, digital transmitter system for MediaFLO mobile-media transmission under parts 2 and 27 of the FCC rules. The FCC identifier for the product family is selected as CHPULT-1K10K2. The transmitter(s) can be operated in a range from 1.0kW-10.2kW average power, not to exceed 50kW ERP when antenna gain is considered. Limits for radiated power and antenna height set forth in part 27 of the FCC rules apply.

Enclosed are an engineering report with required test results and technical manuals with circuit diagrams/theory of operation with intention of demonstrating compliance with FCC regulations. A guide to all the documents submitted as required in section 2.1033(c) of the FCC rules is given in the document "Equipment Description".

If further information is required, please contact me at (413) 998-1231.

Sincerely,

Brett Jenkins  
VP Engineering  
Thales Broadcast & Multimedia Inc.
