

G-TX750 INSTRUCTIONS FOR OPERATION

SETTING THE OPERATING CONTROLS

1. This unit operates on CR2032*1 PCS; 3 volts battery (not included).
To prevent possible damage if the battery should leak, be sure to remove the battery when the unit is not use.
2. Store the controller away from excess heat or humidity.
3. This remote-control unit is required with 66bit code hopping technology. To prevent possible interference from or to other remote units such as garage door openers, car alarm or security system.
4. Operation buttons on the panel of transmitter.

	1	key – For Up Door
	2	key – For Stop Door
	3	key –For Down Door
	1. Use CR2032 3V battery 2. Replace the battery: Use a screwdriver counterclockwise, remove the screws on the back, open the rear case, take out the old battery and put in a new one. After installing the battery, put back the rear case and lock the rear case clockwise with a tool to complete the battery replacement. Warning slogans engraved on the back of the shell: ⚠WARNING Chemical Burn Hazard. Keep batteries away From children. See Manual.	

GENERAL INFORMATION :

This remote controller is designed to separately control your Garage Door Openers.

NOTICE:

The changes or modifications not expressly approved by the party responsible for compliance could void user's authority to operate the equipment.

IMPORTANT NOTE:

To comply with the FCC RF exposure compliance requirements, no change to the antenna or the device is permitted. Any change to the antenna or the device could result in the device exceeding the RF exposure requirements and void user's authority to operate the device.

FEDERAL COMMUNICATIONS COMMISSION INTERFERENCE STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

CAUTION:

Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause

Canada, Industry Canada (IC) Notices

This device complies with Canada license-exempt RSS standard(s).

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Canada, Avis's industry Canada (IC)

Cet appareil est conforme avec Industrie Canada exemptes de licence RSS standard(s).

Son fonctionnement est soumis aux deux conditions suivantes : (1) cet appareil ne doit pas causer d'interférence et (2) cet appareil doit accepter toute interférence, notamment les interférences qui peuvent affecter son fonctionnement.

Radio Frequency (RF) Exposure Information

The radiated output power of the Wireless Device is below the Industry Canada (IC) radio frequency exposure limits. The Wireless Device should be used in such a manner such that the potential for human contact during normal operation is minimized.

This device has also been evaluated and shown compliant with the IC RF Exposure limits under portable exposure conditions.

Information concernant l'exposition aux fréquences radio (RF)

La puissance de sortie émise par l'appareil de sans fil est inférieure à la limite d'exposition aux fréquences radio d'Industry Canada (IC). Utilisez l'appareil de sans fil de façon à minimiser les contacts humains lors du fonctionnement normal.

Ce périphérique a également été évalué et démontré conforme aux limites d'exposition aux RF d'IC dans des conditions d'exposition à des appareils portables.
