INSTRUCTIONS FOR OPERATION

SETTING THE OPERATING CONTROLS

1. This unit operates on a 12 volts battery (not included).
   To prevent possible damage if the battery should leak, be sure to remove
   the battery when the unit is not use.

2. Store the controller away from excess heat or humidity.

3. This remote control unit is required with 16 code combinations. To prevent
   possible interference from or to other remote units such as garage door
   openers, car alarm or security system. If you find that your fan and light
   kit go on and off without using your control, simply change the combination
   code in your transmitter and receiver.

4. Operation buttons on the panel of transmitter.
   VI key – For fan Maximum speed.
   V key – For fan high speed.
   IV key – For fan Medium speed.
   III key – For fan Low speed.
   II key – For fan Lower speed.
   I key – For fan Minimum speed.
   OFF key – For fan speed off.
   REV key – For fan speed Reverse.
   CONTROL key – For light brightness and ON/OFF control.
   SET key – For learn

5. Start the fan:
   Press the selected speed button to run the fan at the desired.

6. Turn off the fan:
   Press the OFF button.

7. Light control:
   Turn the light on or off by only touching the LIGHT CONTROL button.
   Keep pressing the button in excess of 0.7 second it becomes a dimmer,
   the light varies cyclically in 0.8 second.
   One of the important feature of this control is AUTO-RESUME. After power
   on, it allows the light return to where it was off.
GENERAL INFORMATION:

This REMOTE controller is designed to separately control your ceiling fan speed and light brightness. The Light ON/OFF button will control the light brightness ON/OFF. The red indicator on the transmitter will light when the button is pressed.
