RE: FCC ID: CJJ79XITS-7029
Original Grant date: 3/30/98

Gentlemen:

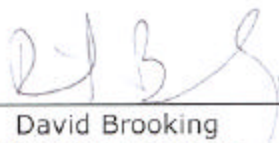

Axcera requests a Class II Permissive Change for the Axcera-5765, 25-Watt Digital Amplifier (CJJ79XITS-7029).

The current Grant of Equipment Authorization allows for this product to operate within the former MDS/MMDS/ITFS frequency bands under the rules contained in Parts 21 and 74, at a power level of 25 Watts.

Axcera would like to amend the original Grant of Authorization to show that this product complies with the current Broadband Radio Service (BRS) and Educational Broadband Service (EBS) rules contained in Part 27, at a power level of 20 Watts.

The enclosed application and test data report are intended to demonstrate compliance with FCC guidelines for this request.

Please contact me if you have any questions or if you need additional information. I can be reached by fax at (724) 873-8105 or phone at (724) 873-8100, extension 233.

David Brooking
Principal Engineer
