**SUBJECT: Hyundai Electronics Industries Co., Ltd.
FCC ID: CKLHGP-3000E**

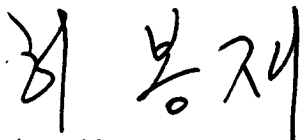

Dear Frank / Kwok:

Hyundai Electronics Industries Co., Ltd. hereby confirms that the ear-microphone jack indicated in the instruction manual is intended for hands-free operation, which enables the phone to be used in a body-worn configuration. Based on the additional SAR measurements performed at PCTEST Lab for body-worn configuration (see attached), Hyundai Electronics Industries Co., Ltd. confirms that we will implement the following warning statement in the instruction manual:

For body-worn operation, the phone should be at least 0.6 inch away from the body when transmitting, to comply with FCC RF exposure requirements. An optional holster/belt-clip is available as an accessory. Users are cautioned that the use of non-tested accessories may exceed FCC RF exposure limits. Please contact your local dealer for optional accessory information.

If you have any further questions regarding this matter, please do not hesitate to contact PCTEST Lab at (301) 596-2120.

Sincerely,

 Dec 14, 1999
