Attn: Director of Certification

Re: Tune-up/Adjustment affidavit for FCC ID#: CNVHC4-6L

The Applicant hereby states the above mentioned product does not require any user tune-up, adjustments, or calibration.

The end user only has the option of selecting between (2) two factory set output power levels (10 Watts or 2 Watts). To do so, the user must select either high or low power from the external control panel.

Sincerely

A handwritten signature in black ink, appearing to read "G. Bunney", is positioned above the printed name.

Graham Bunney

President
