WM-BN-BM-26_A WiFi+BT Module User Manual

PWN: 802.11b/g/n + BT Wireless LAN Module

FVIN: 7.10.324.2

Universal Global Scientific Industrial Co., Ltd.

No. 141, Lane 351, Taiping Road, Sec. 1, Tsaotuen,

Nantou County 54261, Taiwan

TEL +886-49-221-2700

FAX +886-49-232-9561

The WM-BN-BM-26_A module complies with the following features and standards;

Features	Description
WLAN Standards	IEEE 802 Part 11b/g/n (802.11b/g/n)
Bluetooth	Bluetooth™ 4.1 compliance
Antenna Port	Support Single-Band Antenna Shared between Wi-Fi and BT
Frequency Band	2.4 to 2.497GHz (1 to 14 channels)

Power supply for the WM-BN-BM-26_A module will be provided by the host via the power pins

Symbol	Parameter	Min	Typ.	Max	Unit
VBAT	DC supply voltage for VBAT	3.2	3.6	3.9	V
VDDIO	DC supply voltage for digital I/O	1.71	1.8 3.3	3.63	V

Universal Global Scientific Industrial Co., Ltd.
No. 141, Lane 351, Taiping Road, Sec. 1, Tsaotuen,
Nantou County 54261, Taiwan

FAX +886-49-232-9561

WiFi User Guide

User SIDO interface in PC/NB to control WM-BN-BM-26_A

- 1) power supply 3.7V
- 2) NB HP331
- 3) Linux OS (USB3.0 dongle)
- 4) Dmesg → check this device is recognized

```
root@enc:/home/enc#
enc@enc:~$ sudo su
[sudo] password for enc:
root@enc:/home/enc#
root@enc:/home/enc# dmesg
```

```

Bluetooth User Guide

Install Bluetool on PC firstly. User UART in PC to control Bluetooth.

- 1) power supply 3.7V
- 2) Uart cable to NB(R60) usb
- 3) Computer → device manager → COM38(it depends on your port)

- 4) Open the bcm4343bt files(D:/Kelly/WM-BN-BM-26_A)→1_Download_firmware
(hcd file:BCM4343A1_001.002.009.0018.0026_ORC.hcd)

The screenshot shows a Windows XP desktop environment. In the background, a file explorer window is open, displaying a directory structure for 'D:\Kally\WM-EN-BM-26_A新資料\bcm43430bt'. The directory contains several files and subdirectories, including '43430b_testreport', 'bcm43430bt', 'ch341_j3-340_window_drivers', 'class 2_20150224', '1_Download_firmware_Bst', '1_Download_firmware_test.bt', '2_Enable_DUT.Bst', '43430BT_mail.bt', 'BCM4339_003_001_009_0105_0488_ORC_US1_CL1.hcd', 'BCM4339_003_001_009_0105_0494_ORC_US1_CL2.hcd', 'BCM43430_001_001_034_0058_0219_ORC.hcd', 'BCM43430_001_001_034_0058_0223_ORC_CL2.hcd', 'BCM43431_001_002_009_0018_0026_ORC.hcd', 'BCM43431_001_002_009_0020_0038_ORC_US1_WM-EN-BM-26_A_CL1.hcd', 'BCM43431_001_002_009_0020_0039_ORC_US1_WM-EN-BM-26_A_CL2.hcd', 'BCM43431_001_002_009_0033_0000_09_US1_WM-EN-BM-26_A_TEST_ONLY.hcd', and 'BCM20702B0_002_001_014_0198_0000_Genasic_UART_Class2_20MHz_WICED.hcd'. A search bar at the top of the window shows the path 'D:\Kally\WM-EN-BM-26_A新資料\bcm43430bt'. In the foreground, the Start menu is open, and the search bar contains the text 'BlueTool'. The search results show 'BlueTool' as the top result, with the path 'C:\Program Files\Broadcom\BlueTool' displayed below it. Other search results include 'Internet Explorer', 'Outlook Express', '記事本', '命令提示符', 'Apollo', 'Term Term', '小畫家', and '所有程式'.

The screenshot shows the 'Broadcom Elite Tool' application window. The 'View' menu is open, displaying the following options:

- Log Window (Ctrl+O)
- ✓ Log Filter Screen (Alt+F)
- Clear Log Window (Alt+C)
- Ignore Current Inquiry Results

The taskbar at the bottom of the screen shows the following active applications and files:

- 開始 (Start)
- 未命名 - 小畫家 (Untitled - Paint)
- D:\Kelly\WM-EN-EM-25...
- Broadcom Elite Tool

The system clock in the bottom right corner indicates the time is 下午 02:22 (2:22 PM).

The screenshot displays the 'Broadcom Blue Tool' application. The 'Log Window' is active, showing a list of log entries. The entries are as follows:

Description	Cycle
BCI Control	Cycle1
Swapsite...	Cycle2
Thermostat Test...	Cycle3
BOO Test...	Cycle4
Set Speech Board width to 16KHz	Cycle5
Speech Log with 16KHz	Cycle6
Respiratory Mode (click to run ON)	Cycle7
Bluetooth HID...	Cycle8
Over-the-air Firmware Update...	Cycle9
BCI Downloaded	Cycle10
Downloaded Firmware Config...	Cycle9

The bottom status bar indicates the file path 'D:\Wally\WM4-BN-ENM-26...' and the application name 'Broadcom Blue Tool'.

Federal Communication Commission Interference Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Universal Global Scientific Industrial Co., Ltd.
No. 141, Lane 351, Taiping Road, Sec. 1, Tsaotuen,
Nantou County 54261, Taiwan
TEL +886-49-221-2700
FAX +886-49-232-9561

This device is intended only for OEM integrators under the following conditions:

- 1) The antenna must be installed such that 20 cm is maintained between the antenna and users, and
- 2) The transmitter module may not be co-located with any other transmitter or antenna.

As long as 2 conditions above are met, further transmitter test will not be required. However, the OEM integrator is still responsible for testing their end-product for any additional compliance requirements required with this module installed

IMPORTANT NOTE: In the event that these conditions can not be met (for example certain laptop configurations or co-location with another transmitter), then the FCC authorization is no longer considered valid and the FCC ID can not be used on the final product. In these circumstances, the OEM integrator will be responsible for re-evaluating the end product (including the transmitter) and obtaining a separate FCC authorization.

End Product Labeling

This transmitter module is authorized only for use in device where the antenna may be installed such that 20 cm may be maintained between the antenna and users. The final end product must be labeled in a visible area with the following: "Contains FCC ID: COF-WMBNBM26A". The grantee's FCC ID can be used only when all FCC compliance requirements are met.

Manual Information To the End User

The OEM integrator has to be aware not to provide information to the end user regarding how to install or remove this RF module in the user's manual of the end product which integrates this module.

The end user manual shall include all required regulatory information/warning as show in this manual.

Universal Global Scientific Industrial Co., Ltd.
No. 141, Lane 351, Taiping Road, Sec. 1, Tsao-tuen,
Nantou County 54261, Taiwan
TEL +886-49-221-2700
FAX +886-49-232-9561

This device is intended only for OEM integrators under the following conditions:

- 1) The antenna must be installed with 20 cm is maintained between the antenna and users **in mobile or fixed applications.**
- 2) The allowed antenna is chip antenna type and max. allowed gain value is 3.68dBi.
- 3) The transmitter module may not be co-located with any other transmitter or antenna.

As long as 2 conditions above are met, further transmitter test will not be required. However, the OEM integrator is still responsible for testing their end-product for any additional compliance requirements required with this module installed.

OEM integrators Must demonstrate Part 15B test and meet compliance before end-product with module (COF-WMBNBM26A) marketed.

Industry Canada statement:

This device complies with ISED's licence-exempt RSSs. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Le présent appareil est conforme aux CNR d'ISED applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) le dispositif ne doit pas produire de brouillage préjudiciable, et (2) ce dispositif doit accepter tout brouillage reçu, y compris un brouillage susceptible de provoquer un fonctionnement indésirable.

Radiation Exposure Statement:

This equipment complies with ISED radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Déclaration d'exposition aux radiations:

Cet équipement est conforme aux limites d'exposition aux rayonnements ISED établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.

Universal Global Scientific Industrial Co., Ltd.
No. 141, Lane 351, Taiping Road, Sec. 1, Tsao-tuen,
Nantou County 54261, Taiwan
TEL +886-49-221-2700
FAX +886-49-232-9561

This device is intended only for OEM integrators under the following conditions: (For module device use)

- 1) The antenna must be installed such that 20 cm is maintained between the antenna and users, and
- 2) The transmitter module may not be co-located with any other transmitter or antenna.

As long as 2 conditions above are met, further transmitter test will not be required. However, the OEM integrator is still responsible for testing their end-product for any additional compliance requirements required with this module installed.

Cet appareil est conçu uniquement pour les intégrateurs OEM dans les conditions suivantes: (Pour utilisation de dispositif module)

- 1) L'antenne doit être installée de telle sorte qu'une distance de 20 cm est respectée entre l'antenne et les utilisateurs, et
- 2) Le module émetteur peut ne pas être coïmplanté avec un autre émetteur ou antenne.

Tant que les 2 conditions ci-dessus sont remplies, des essais supplémentaires sur l'émetteur ne seront pas nécessaires. Toutefois, l'intégrateur OEM est toujours responsable des essais sur son produit final pour toutes exigences de conformité supplémentaires requis pour ce module installé.

Universal Global Scientific Industrial Co., Ltd.
No. 141, Lane 351, Taiping Road, Sec. 1, Tsao-tuen,
Nantou County 54261, Taiwan
TEL +886-49-221-2700
FAX +886-49-232-9561

IMPORTANT NOTE:

In the event that these conditions can not be met (for example certain laptop configurations or co-location with another transmitter), then the Canada authorization is no longer considered valid and the IC ID can not be used on the final product. In these circumstances, the OEM integrator will be responsible for re-evaluating the end product (including the transmitter) and obtaining a separate Canada authorization.

End Product Labeling

This transmitter module is authorized only for use in device where the antenna may be installed such that 20 cm may be maintained between the antenna and users. The final end product must be labeled in a visible area with the following: "Contains IC:10293A-WMBNBM26A".

Plaque signalétique du produit final

Ce module émetteur est autorisé uniquement pour une utilisation dans un dispositif où l'antenne peut être installée de telle sorte qu'une distance de 20cm peut être maintenue entre l'antenne et les utilisateurs. Le produit final doit être étiqueté dans un endroit visible avec l'inscription suivante: "Contient des IC: 10293A-WMBNBM26A ".

Manual Information To the End User

The OEM integrator has to be aware not to provide information to the end user regarding how to install or remove this RF module in the user's manual of the end product which integrates this module.

The end user manual shall include all required regulatory information/warning as show in this manual.

Manual Information To the End User

The OEM integrator has to be aware not to provide information to the end user regarding how to install or remove this RF module in the user's manual of the end product which integrates this module.

The end user manual shall include all required regulatory information/warning as show in this manual.

Manuel d'information à l'utilisateur final

L'intégrateur OEM doit être conscient de ne pas fournir des informations à l'utilisateur final quant à la façon d'installer ou de supprimer ce module RF dans le manuel de l'utilisateur du produit final qui

Universal Global Scientific Industrial Co., Ltd.
No. 141, Lane 351, Taiping Road, Sec. 1, Tsao-tuen,
Nantou County 54261, Taiwan
TEL +886-49-221-2700
FAX +886-49-232-9561

intègre ce module.

Le manuel de l'utilisateur final doit inclure toutes les informations réglementaires requises et avertissements comme indiqué dans ce manuel.

Caution :

- (i) the device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems;
- (ii) the maximum antenna gain permitted for devices in the band 5725-5850 MHz shall be such that the equipment still complies with the e.i.r.p. limits specified for point-to-point and non-point-to-point operation as appropriate; and
- (iii) Users should also be advised that high-power radars are allocated as primary users (i.e. priority users) of the bands 5650-5850 MHz and that these radars could cause interference and/or damage to LE-LAN devices.

Avertissement:

- (i) les dispositifs fonctionnant dans la bande 5150-5250 MHz sont réservés uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux;
- (ii) le gain maximal d'antenne permis (pour les dispositifs utilisant la bande de 5725 à 5 850 MHz) doit être conforme à la limite de la p.i.r.e. spécifiée pour l'exploitation point à point et l'exploitation non point à point, selon le cas;
- (iii) De plus, les utilisateurs devraient aussi être avisés que les utilisateurs de radars de haute puissance sont désignés utilisateurs principaux (c.-à-d., qu'ils ont la priorité) pour les bandes 5650-5850 MHz et que ces radars pourraient causer du brouillage et/ou des dommages aux dispositifs LAN-EL.
