

DO YOU WANT TO TRANSFORM
YOUR CLASSROOM?

OF COURSE YOU DO...
HERE'S HOW

Create an **exciting** and **interactive**
classroom with a Student Response System

InterWrite™ PRS^{RF} Allows You To

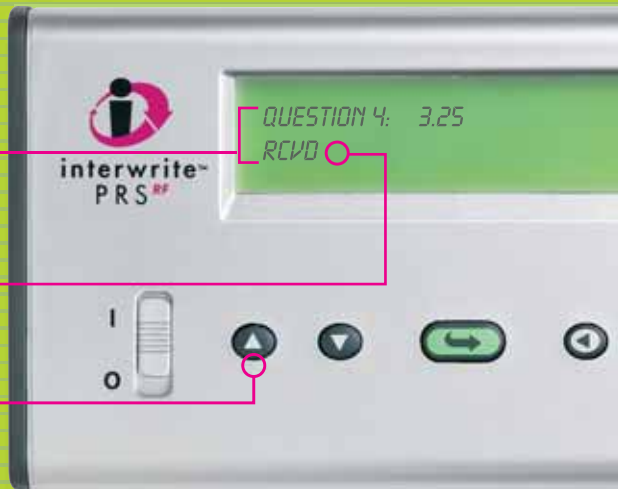

- **Instantly** gauge student comprehension
- **Encourage** class discussion among all students
- Continuous **feedback** provides students an active learning process
- **Easily** deliver quizzes and assessments electronically
- Take **attendance**
- Instantly grade and record student **results**
- Generate student **assessment** reports
- Focus more time on **teaching...** and less time on paperwork and grading

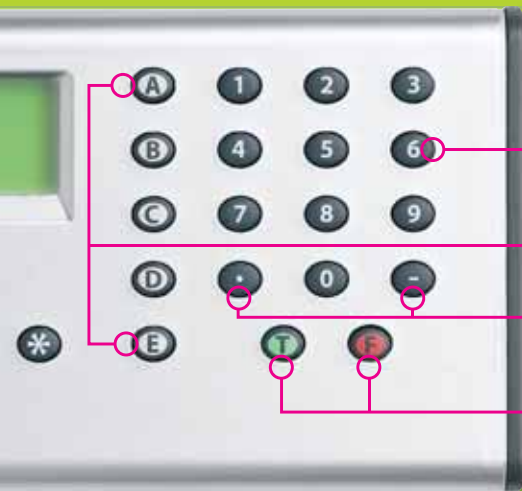

PRS^{RF} Features

Students Can See
Their Answers with
the 2-Line LCD Display

Receive Visual Notification
that Answer was Received

Scroll Through
Questions in
Self-Paced Mode

Question Types Supported:

Numeric Questions

Multiple Choice Questions

Decimal Point
and +/-

True/False
Questions

PRS unit shown at actual size.

InterWrite™ PRS^{RF} Offers You

Flexibility in How You Create Your Questions

Create questions in PRS, import questions from publishers, or use current PowerPoint® slides.

Flexibility on What Platform You Wish to Use

Supported in Windows® and Mac® environments

Flexibility in Types of Questions You Can Ask

True/False, Multiple Choice, Numeric, On-the-fly, and Self-Paced

Flexibility on How to Use Your Data

Quickly grade lessons and generate reports to analyze student data. Easily save student data with the PRS gradebook or export and use in other applications such as Blackboard, WebAssign or WebCT.
