American Certification Body Inc.
313 Park Avenue, Suite 300, Falls Church, VA 22046

FCC ID: CWTF250X
Applicant: ALPS ALPINE CO., LTD.

Justification Statement

To Whom It May Concern,

According to the FCC TCBC presentation made in 2022, only radiated measurements are used to show compliance with FCC limits for fundamental and spurious emissions; therefore, antenna gain information is not required.

For this application, the EIRP limit is specified by Equivalent Isotropic Radiated Power (EIRP) under 15.255(c)(3), and the spurious emission limit is specified under 15.209. The peak EIRP 26.31dBm was measured according to the description in section 4.3.2 “Test setup” in Test report. It is measured by radiated setup in 966 chamber.

As a result, antenna gain information is not required for the evaluation of this device, and the AUT Report has not been submitted as part of this application.

Sincerely,

Yuji Ouchi, Group Leader
