SUBJECT: Class II Permissive Change FCC ID: DD4BLX2S

To Whom It May Concern,

Pursuant to KDB178919 D01 v06 section III(D), the Shure Incorporated wireless microphone transmitter FCC ID: DD4BLX2S is substituting a component on the PCB (transistor chip) due to a part discontinuation. The replacement part has the same basic function as the old part and no change in radio parameters has occurred.

New test data was generated in order to verify that there were no significant changes in the radio parameters. The new data meets requirements set out in KDB206256 D01 (Wireless Microphone Certification v02).

Sincerely,

A handwritten signature in blue ink, reading "Craig Kozokar". The signature is written in a cursive, flowing style.

Craig Kozokar, Project Engineer
