This image shows the reverse side of a Raspberry Pi 1B. The green PCB is populated with various electronic components. Key features include:

- Connectors:** A large black USB Type-A connector (labeled CN12) and a black micro-USB connector (labeled CN14) are on the left. An orange 40-pin GPIO header (labeled CN11) is on the right. A black 15-pin D-sub connector (labeled CN13) is also on the right.
- Components:** The board features a central SoC (labeled U2), several capacitors (e.g., C20, C21, C22, C23, C24, C25, C26, C27, C28, C29, C30, C31, C32, C33, C34, C35, C36, C37, C38, C39, C40, C41, C42, C43, C44, C45, C46, C47, C48, C49, C50, C51, C52, C53, C54, C55, C56, C57, C58, C59, C60, C61, C62, C63, C64, C65, C66, C67, C68, C69, C70, C71, C72, C73, C74, C75, C76, C77, C78, C79, C80, C81, C82, C83, C84, C85, C86, C87, C88, C89, C90, C91, C92, C93, C94, C95, C96, C97, C98, C99, C100), resistors (e.g., R1, R2, R3, R4, R5, R6, R7, R8, R9, R10, R11, R12, R13, R14, R15, R16, R17, R18, R19, R20, R21, R22, R23, R24, R25, R26, R27, R28, R29, R30, R31, R32, R33, R34, R35, R36, R37, R38, R39, R40, R41, R42, R43, R44, R45, R46, R47, R48, R49, R50, R51, R52, R53, R54, R55, R56, R57, R58, R59, R60, R61, R62, R63, R64, R65, R66, R67, R68, R69, R70, R71, R72, R73, R74, R75, R76, R77, R78, R79, R80, R81, R82, R83, R84, R85, R86, R87, R88, R89, R90, R91, R92, R93, R94, R95, R96, R97, R98, R99, R100), and a small black integrated circuit (labeled U1).
- Markings:** The text "1807" is printed on the PCB, indicating the manufacturing date (July 2018).
