FCC ID: DGFSCOTT41367- Class II Permissive Change

To whom it may concern,

Attached is the Class II Permissive Change Certification application for FCC ID: **DGFSCOTT41367**.

Class II PC is necessary to perform product change per customer request, to include extended frequency range of operation from 902 to 927MHz using firmware update without changes to RF circuitry. These conditions should meet Class II permissive changes.

There are no other changes in the design, circuitry or construction that have been made by 3M Company to the previously certified product

A handwritten signature in black ink, appearing to read "Yuriy Litvinov".
