Part 15 – PROFESSIONAL INSTALLATION ATTESTATION

FCC ID: **DO4WRTZ1550**

The applicant **Checkpoint Systems, Inc.** hereby declares that the requirements of KDB 353028 D01 Antennas Part 15 Transmitters v01r01 have been met and shown on the following questions.

c) i) Professional installation must be justified.

Description: Checkpoint Systems requires that this device be installed in a larger system with a predetermined set of antennas. Only certain Checkpoint employees are certified to install this equipment in such a way that conforms to the requirements of CFR § 15.247 and RS-247.

c) ii) Professional installation does not permit use of any antenna with the transmitter; the permitted types of antennas specified as below.

Description: The following antennas are currently permitted to operate with the unit:

Number	Characteristics	Name	Connector	Frequency Band (MHz)	Gain (dBiC)	Gain (dBi)
1	HPBW	Kathrein 520 10073	TNC	902-928	8.2	5.2
2	HPBW	Laird S9028PCL/S9028PCR	TNC	902-928	9.0	6.0
3	HPBW	Checkpoint A1212	SMA	902-928	6.5	3.5
4	HPBW	Checkpoint A1230 FCC	SMA	902-928	8.0	5.0
5	HPBW	Checkpoint A1266 FCC	SMA	902-928	8.5	5.5
6	HPBW	Checkpoint A1268 FCC	SMA	902-928	7.0	4.0
7	HPBW	Checkpoint A1270 FCC	SMA	902-928	6.5	3.5
8	HPBW	Checkpoint A1278 FCC	SMA	902-928	5.5	2.5
9	HPBW	Checkpoint OH2 10042405	SMA	902-928	9.0	6.0
10	HPBW	Jiakang 10048079	SMA	902-928	7.0	4.0

c) iii). The applicant should address the following items when justifying professional installation.

(1) To qualify for professional installation, please explain why the hardware is not readily available to average consumer.

Description: Checkpoint does not offer avenues by which the average consumer is able to obtain our hardware. All hardware is ordered, installed and maintained by certified Checkpoint employees.

(2) Marketing — Applicant must ensure device cannot be sold via retail to the general public or by mail order.

Description: Checkpoint does not offer avenues by which the average consumer is able to obtain our hardware. All hardware is ordered, installed and maintained by certified Checkpoint employees. Checkpoint sales employees perform marketing duties and arrange for installation by certified Checkpoint employees.

(3) Applicant must show that device intended use is not for consumers and general public.

Description: Device is only to be installed by certified Checkpoint Systems employees. No retail or mail-order distribution is permitted.

(4) Explain what is unique, sophisticated, complex, or specialized about the equipment that REQUIRES it to be installed by a professional installer?

Description: Device must specifically be configured to operate in the FCC and CE regions and configured to operate with specific antenna. This configuration may only be performed by certified Checkpoint Systems employees.

iv). Other professional installation requirements

(1) Installation must be controlled.

(2) Installed by licensed professional (e.g. device sold to dealer who hires installers)

(3) Installation requires special training (e.g., special programming, access to keypad, field strength measurements made).

Description: Installation and service is only to be performed by certified Checkpoint employees.

Certified Checkpoint employees are responsible for setting up the equipment in a configuration that conforms to the requirements of CFR § 15.247 and RS-247. Unit is not designed for standalone sale and is only available as part of a system. System is also only to be installed by Checkpoint employees.
