To: Mr. George Tannahill
Federal Communication Commission
Equipment Approval Services

Subject: FCC approval of our new model WT3350SE, FCC ID: DYDWT3350

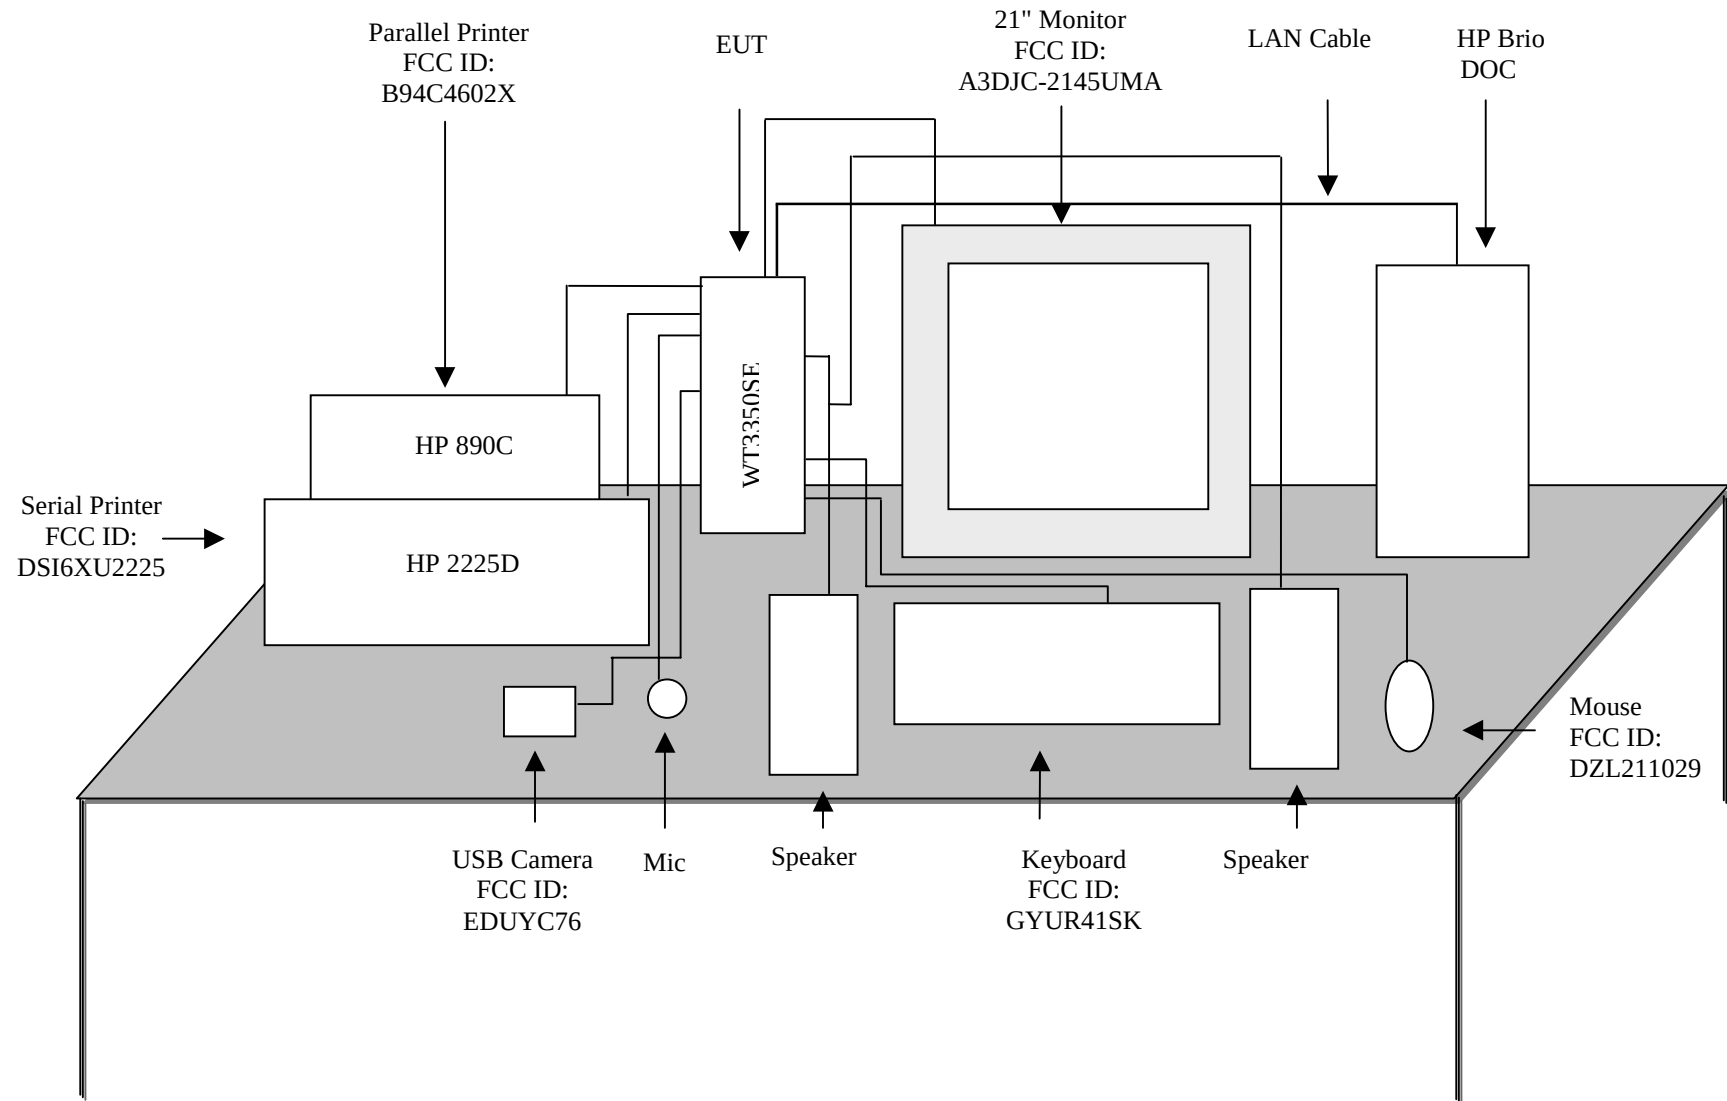

Dear Mr. Tannahill:

We are applying for the approval of our Window Based Terminal Model WT3350SE, the functionality of this model is similar to our approved model WT2315Se (DYDWT2300) except we have redesigned the logic board using National GXM CPU and national video driver 5530. Also the EMI cage has been redesigned. With this letter I have provided all the necessary documentation electronically and attached with this letter is the radiated and conducted setup drawing. All the test equipment information have been included as part of the radiated and conducted test report.

We are planning to start production on March 15, it is greatly appreciated if you could process this request as soon as possible. If you have any question or need additional information, please call me at (408)473-2697. Fax: (408)473-2245. E-mail: masood@wyse.com

Sincerely Yours;
Masood Abrishamcar
