

Limited Modular Approval Request Letter

Bureau Veritas Consumer Products Services (H.K.) Ltd., Taoyuan Branch

March 20, 2026

Dear Application Examiner,

Dell Inc., RFID 13.56MHz Wireless Module, FCC ID: E2K-DWRFID2503 would like to have your authorization as a limited modular approval for the specific Dell's host as below description:

The requirements of § 15.212 Modular transmitters have been shown in the following statements.

Item	Modular requirement	Y/N	Comments
1	The radio elements of the modular transmitter must have their own shielding	N	This modular does not have its own RF shielding, so this is a LMA application with a specific host of portable computer (Brand: DELL, Model Number: P151F).
2	The modular transmitter must have buffered modulation/data inputs.	Y	The module's transmitter chip utilizes buffered data inputs.
3	The modular transmitter must have its own power supply regulation.	Y	The module contains its own power supply regulator chip.
4	The modular transmitter must comply with the antenna and transmission system requirements of §§ 15.203, 15.204(b) and 15.204(c).	Y	The EUT meets the FCC antenna requirements. The spurious emission, unique antenna connector and photo of antennas are shown in the test report.
5	Be tested in a stand-alone configuration, i.e., the antenna, AC or DC power and data input/output lines must be connected to the module but, the module must not be inside another case during testing.	N	The EUT was tested inside a specific platform. The EUT is for limited modular approval for this specific platform. (Model: P151F; Brand: DELL). However, if this module will be installed into the other host, the grantee should file a Class II permissive change for each specific host per the test plan defined in the module integration instructions
6	The modular transmitter must be equipped with either a permanently affixed label or must be capable of electronically displaying its FCC identification number.	Y	The module label is permanently affixed to the EUT. And also in the exhibition Users Manual, there are instructions give to the OEM on how to label the end product.
7	The modular transmitter must comply with any specific rules or operating requirements that ordinarily apply to a complete transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements.	Y	The EUT is compliant with all applicable FCC rules. Detail instructions for maintaining compliance are given in the Users Manual.
8	Address compliance with the Commission's RF exposure limits in Sections 1.1310 and 2.1093.	Y	The EUT is compliant with all applicable RF exposure requirements. RF Exposure is addressed in the RF exposure exhibition.

Please contact me if you have any further questions. Thanks for your attention.

Best Regards,

A handwritten signature in black ink, appearing to read "Emerald", with a stylized flourish at the end.
