

23B5 Quick Start Guide

1. Product Introduction

1.1 Parts and Controls:

1.2 Packaging list:

Description	Quantity
23B5 Stylus	1 pc
USB Cable (Type C to Type C)	1 pc

2. Instructions for use

2.1 Charging the battery

1. Remove the insulating sheet and charge battery before the first use.
2. Charging: Breathing blue light (Fully charged: Solid blue light)
In use: None
Low battery: Breathing orange light
3. Standard supply voltage for Type C (USB 2.0)
charger: 4.75 ~ 5.5V
Input voltage : 4.75 ~ 5.5V

2.2 How to replace the pen refill

Step 1

Pull out the used pen tip.

Step 2

Insert the replacement pen tip into the pen.

Step 3

Do not insert the new pen tip into active pen with too much strength.

2.3 Power saving function

The stylus will enter power-saving mode if pen idles more than 10 seconds.

3. Specifications

Marketing Model	WBS23B5LUB-K03
Pen type	Active pen
Stylus protocol	USI 2.0
Stylus operational mode	Inking, Sleep
Pressure level	5-450g with 4096 Level
Ink activation force	Less than 10g
Pen tip	POM
Pen tip replaceable	Yes
Power source	Li battery 80mAh
Charging type	Type-C
Battery life	60days (2hrs/day usage time)
LED indication	Charging: orange light Full charge: blue light Low battery voltage: red blinking light
Diameter	10.2mm x 10.04mm±0.1mm
Length	168.6±0.3 mm
Weight	18g+/-1%
Tilt accuracy/resolution	±10°
Hover info	8mm typ.

Federal Communication Commission Interference Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Industry Canada statement:

This device complies with ISED's licence-exempt RSSs. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Le présent appareil est conforme aux CNR d'ISED applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) le dispositif ne doit pas produire de brouillage préjudiciable, et (2) ce dispositif doit accepter tout brouillage reçu, y compris un brouillage susceptible de provoquer un fonctionnement indésirable.

Radiation Exposure Statement:

The product comply with the Canada portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

Déclaration d'exposition aux radiations:

Le produit est conforme aux limites d'exposition pour les appareils portables RF pour les Etats-Unis et le Canada établies pour un environnement non contrôlé.

Le produit est sûr pour un fonctionnement tel que décrit dans ce manuel. La réduction aux expositions RF peut être augmentée si l'appareil peut être conservé aussi loin que possible du corps de l'utilisateur ou que le dispositif est réglé sur la puissance de sortie la plus faible si une telle fonction est disponible.

CAN ICES-003(B)/NMB-003(B)

Caution

- replacement of a BATTERY with an incorrect type that can defeat a SAFEGUARD (for example, in the case of some lithium BATTERY types);
- disposal of a BATTERY into fire or a hot oven, or mechanically crushing or cutting of a BATTERY, that can result in an EXPLOSION;
- leaving a BATTERY in an extremely high temperature surrounding environment that can result in an EXPLOSION or the leakage of flammable liquid or gas;
- a BATTERY subjected to extremely low air pressure that may result in an EXPLOSION or the leakage of flammable liquid or gas.

ATTENTION

- Risque d'explosion en cas de remplacement de la pile par une pile de type incorrect.
- Le remplacement d'une PILE par une pile de type incorrect peut neutraliser un SYSTÈME DE SÉCURITÉ (par exemple dans le cas de certains types de PILES au lithium).
- La mise au rebut d'une PILE dans le feu ou dans un four chaud, ou par écrasement ou découpe, peut entraîner une EXPLOSION.
- L'exposition d'une PILE à un environnement présentant une température extrêmement élevée peut entraîner une EXPLOSION ou une fuite de liquide ou de gaz inflammable.
- L'exposition d'une PILE à une pression d'air extrêmement faible peut entraîner une EXPLOSION ou une fuite de liquide ou de gaz inflammable.
