Overview

This is an application to add a new antenna to the Intermec Technologies IP3 FRID Scanner Handle for use with the Intermec Model 700 Mobile Computer. The new antenna is an AeroAntenna Part Number AT900-4. The additional antenna is only for mobile use. The review and approval is based only on the new information submitted, the previous grant, approved by the FCC was accepted at face value as correct.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.

Signature

Findings

Specification	Finding
RF Exposure	The Model 700 Mobile Computer is approved for both portable and mobile use. Provide documentation or attestation that this new antenna, intended only for mobile use will not be allowed for portable use. There must not be any provisions, accessories or instructions that would configure this antenna for body worn (portable) use.
Resolution	The client has provided an attestation supporting mobile use only for this product.

Specification Requirements	Description
15.247	RF Exposure

Opinion: The Equipment meets the intent specified by the requirements listed above.

Discussion: MPE estimates were provided in support of mobile operation.

Reference: RF Exposure Exhibit

Specification Requirements	Description
15.205, 15.35(b), 15.209	Spurious Radiated Emissions

Opinion: The Equipment meets the intent specified by the requirements listed above.

Discussion: Test data was provided to show compliance.
