

The Intermec logo is written vertically in a bold, sans-serif font. To its right is a large, faint, stylized graphic consisting of several overlapping circles and arcs, resembling a network or orbital diagram. Below the logo is a small blue square containing a white geometric pattern of intersecting lines.

RE: Hardware status for FCC ID: EHASMC46 GSM/GPRS Module

To whom it may concern,

The MC46 tri-band GSM module in Intermec's FCCID:EHASMC46 filing is electrically identical to the MC46 module that Siemens has approved under FCCID:QIPMC46. No modifications have been made to the MC46 radio module by Intermec.

Please Contact me if there are any questions.

Yours truly,

A handwritten signature in black ink, reading "Scott Holub". The signature is fluid and cursive, with the first and last names clearly legible.

Scott Holub
