SUBJECT: Class II Permissive Change for FCC ID: ELVATRPG

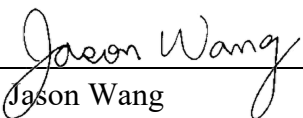

We, [NUTEK CORPORATION], hereby declare that the product models listed below are identical in design, circuitry, PCB layout, RF module, and electrical components, the only difference between the model numbers listed in this report is the plastic housing.

Model List:

- 4361216
- 4361218

Additionally, the following changes are declared:

1. Add model name / HVIN: 4361216 and 4361218.
2. The RF chip IC has been changed from Si1080-A-GM to S1061-A-GM. The new RF chip is of the same brand, model series, and specifications as the original, and does not affect RF performance or compliance.
3. The new RF chip is pin-to-pin compatible with the original device, with identical electrical characteristics. Therefore, there is no impact on PCB layout, RF performance, or EMC compliance.
