Important Safety Instructions

When used in the directed manner, this unit has been designed and manufactured to ensure your personal safety. However, improper use can result in potential electrical shock or fire hazards. Please read all safety and operating instructions carefully before installation and use, and keep these instructions handy for future reference. Take special note of all warnings listed in these instructions and on the unit.

1. Water and Moisture – The unit should not be used near water. For example: near a bathtub, washbowl, kitchen sink, laundry tub, swimming pool or in a wet basement.
2. Ventilation – The unit should be situated so that its location or position does not interfere with its proper ventilation. For example, it should not be situated on a bed, sofa, rug or similar surface that may block ventilation openings. Also, it should not be placed in a built-in installation, such as a bookcase or cabinet, which may impede the flow of air through the ventilation openings.
3. Heat – The unit should be situated away from heat sources such as radiators, heat registers, stoves or other appliances (including amplifiers) that produce heat.
4. Power Sources – The unit should be connected to a power supply only of the type described in the operating instructions or as marked on the appliance.
5. Power-Cable Protection – Power supply cables should be routed so that they are not likely to be walked on or pinched by items placed upon or against them. It is always best to have a clear area from where the cable exits the unit to where it is plugged into an AC socket.
6. Cleaning – The unit should be cleaned only as recommended. See the Maintenance section of this manual for cleaning instructions.
7. Objects and Liquid Entry – Care should be taken so that objects do not fall and liquids are not spilled into any openings or vents located on the product.
8. Attachments – Do not use attachments not recommended by the product manufacturer.
9. Lightning and Power Surge Protection – Unplug the unit from the wall socket and disconnect the antenna or cable system during a lightning storm or when it is left unattended and unused for long periods of time. This will prevent damage to the product due to lightning and power-line surges.
10. Overloading – Do not overload wall sockets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.
11. Damage Requiring Service – The unit should be serviced by qualified service personnel when:

A. the power supply cable or plug has been damaged.
B. objects have fallen into or liquid has been spilled into the enclosure.
C. the unit has been exposed to rain.
D. the unit has been dropped or the enclosure damaged.
E. the unit exhibits a marked change in performance or does not operate normally.

12. Periods of Nonuse – If the unit is to be left unused for an extended period of time, such as a month or longer, the power cable should be unplugged from the unit to prevent damage or corrosion.
13. Servicing – The user should not attempt to service the unit beyond those methods described in the user's operating instructions. Service methods not covered in the operating instructions should be referred to qualified service personnel.

Internal Rechargeable Lithium-ion Battery

This device uses an internal rechargeable lithium-ion battery that should last the lifetime of the device. If you suspect your battery may be dead, try charging it several times. If problems persist, do not attempt to replace the battery yourself, see warranty for factory service.
CAUTION
The battery used in this device may present a risk of fire, explosion or chemical burn if mistreated. Never use or charge the battery if it appears to be leaking, discolored, deformed, or in any way abnormal. Always confirm that the temperature is 5°C – 35° C (41° - 95° Fahrenheit) before you charge the battery. Leakage or deterioration of the battery may occur if this warning is not heeded.
Charging the battery should be conducted under adult supervision.
Never expose the battery to any liquid.
Never expose the battery to excessive heat such as direct sunlight or fire. Never use the battery pack in an unventilated vehicle where excessive internal temperatures may be encountered.
Always keep the battery out of the reach of infants and small children.
Always charge lithium devices on a non-flammable surface - wooden tables, carpeted floors, and bedding are not recommended charging surfaces.
Do not leave the device charging unattended or overnight.
Unplug the charger once the battery is fully charged
Do not dispose of lithium-ion batteries in household trash or recycling bins.
Recycle batteries at certified collection centers. Visit www.call2recycle.org to find a location near you.

Maintenance

• Place the unit on a level surface away from sources of direct sunlight or excessive heat.
• Protect your furniture when placing your unit on a natural wood and lacquered finish. A cloth or other protective material should be placed between it and the furniture.
• Clean your unit with a soft cloth moistened only with mild soap and water. Stronger cleaning agents such as thinner or similar materials can damage the surface of the unit.

FCC Information

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

ISED Information

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:
(1) This device may not cause interference.
(2) This device must accept any interference, including interference that may cause undesired operation of the device.
L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :
(1) L'appareil ne doit pas produire de brouillage;
(2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

RF Exposure Compliance

The equipment complies with FCC/IC Radiation exposure limit set forth for uncontrolled environment. The device shall be operated and installed without restriction.
Cet équipement est conforme aux limites d'exposition aux rayonnements établies par la FCC/IC pour un environnement non contrôlé. Son utilisation et son installation ne sont assujetties à aucune restriction.

Charging the Li-B17

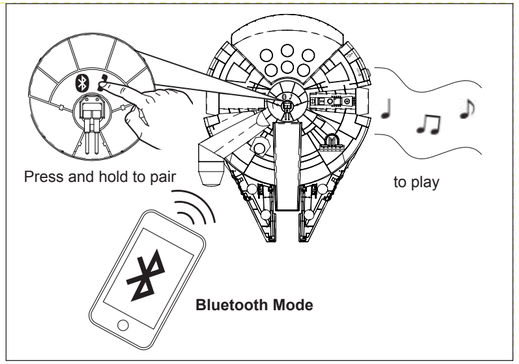

The Li-B17 is powered by a rechargeable battery in the speaker. Make sure to charge speaker before use, using supplied combination cable.

• Connect the included USB cord to the USB-C charging port on the speaker.
• Connect the standard USB plug to a powered USB port, such as that on a computer. Your computer should be connected to a wall outlet when speaker is charging. The light on the speaker will turn to solid red while charging and turn off when fully charged.
• When the battery is low, the red LED light will turn on. If you start to notice sound distortion at higher volumes, it's time to recharge the batteries.

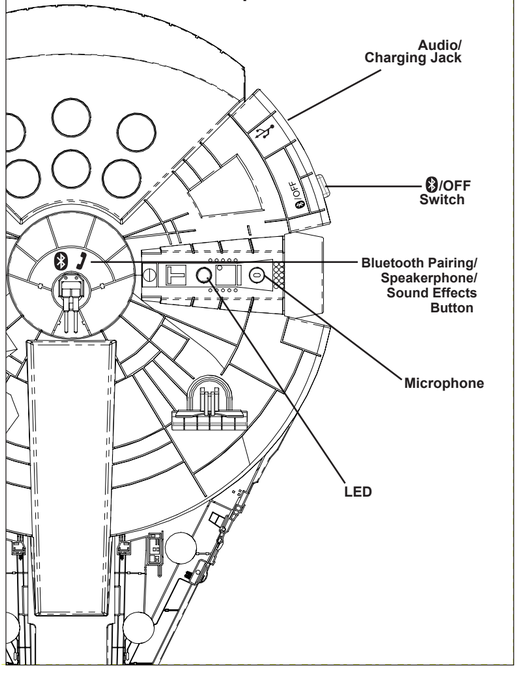

NOTE: The charging LED light will override the pairing LED light pattern.

Using Bluetooth with the Li-B17

- Whenever the unit is set to Bluetooth () mode, the Li-B17 will attempt to autolink a previously paired device for 3 minutes. If no device is paired, or to pair a new device, follow the steps below:
- Make sure your Bluetooth device and the Li-B17 are fully charged. Turn on your Bluetooth device and turn on Bluetooth mode (check in Options or Settings).
- Slide the of /OFF Switch on the speaker to the Bluetooth position (). Press and hold the Bluetooth Pairing Button for 3 seconds. The red LED light will flash quickly, and a tone will sound as the speaker enters pairing mode.
- "StarWarsLi-B17" should appear on your device. If "Not Connected" or similar message appears, select "StarWarsLi-B17" to connect.
- Once paired, a confirmation tone will sound and the red LED will shut off. You can then stream audio to the speaker.
- Control Bluetooth audio from your device. Remember to turn off the speaker and your device after listening.
- If no device is paired within 3 minutes, a failure tone will sound, the red light will flash slowly and the unit will revert to standby mode. To retry pairing, press and hold the Bluetooth Pairing Button for 3 seconds. If pairing is not successful, turn the power "OFF" on the speaker and repeat pairing procedure.

NOTE: To cancel current pairing mode, quickly press the Bluetooth Pairing Button for 1 second.

Answer / End Calls

The Li-B17 also comes equipped with a Speakerphone function which will be active when a call is coming through to your linked Bluetooth device. When an incoming call is received on your device, briefly press the Bluetooth Pairing/Spearkerphone/Sound Effects Button on the speaker once to answer the call. Press and hold for 2 seconds to reject the call. Speak into the microphone during the call. To end the call, briefly press the Bluetooth Pairing/Speakerphone/Sound Effects Button again.
