Model: KP-B47
Bluetooth Light-Up Speaker

Controls Overview

Charging The Speaker

CHARGE THESE
UNITS BEFORE USE
ABOUT 4 HOURS

Bluetooth® Operation

1. Power on the speaker; it will automatically enter Bluetooth pairing mode (indicated by a voicepromptor flashing light).
2. Enable Bluetooth on your device and search for new devices.
3. Select KP-B47 from the list of available devices.
4. A "Connected" voice prompt will confirm successful pairing. You may now play audio from your device.

Wireless Stereo

(REQUIRES 2 SPEAKERS)

1. Power on two speakers and enter Bluetooth® mode.
2. Turn off the Bluetooth® function on your phone or other Bluetooth® device. Double klik ON/OFF button . A voice prompt will be heard to signify that the two speakers have connected via Bluetooth®.
3. Turn on Bluetooth® on the mobile phone and search for "KP-B47" and connect.
4. A voice prompt will be heard signifying that the mobile has connected to the speakers. You can now enjoy music from the two speakers.
5. Both units will link automatically next time when both units are powered on.
6. If want to remove Wireless Stereo, reset Bluetooth® pairing; double klik ON/OFF button of either speaker and a voice prompt will be heard to signify that the two speaker have disconnected.

BACK

Internal Rechargeable Lithium-ion Battery

This device uses an internal rechargeable lithium-ion battery that should last the lifetime of the device. If you suspect your battery may be dead, try charging it several times. If problems persist, do not attempt to replace the battery yourself, see warranty for factory service.

CAUTION

The battery used in this device may present a risk of fire, explosion or chemical burn if mistreated. Never use or charge the battery if it appears to be leaking, discolored, deformed, or in any way abnormal. Always confirm that the temperature is 5°C – 35° C (41° - 95° Fahrenheit) before you charge the battery. Leakage or deterioration of the battery may occur if this warning is not heeded.

- Charging the battery should be conducted under adult supervision.
- Never expose the battery to any liquid.
- Never expose the battery to excessive heat such as direct sunlight or fire. Never use the battery pack in an unventilated vehicle where excessive internal temperatures may be encountered.
- Always keep the battery out of the reach of infants and small children.
- Always charge lithium devices on a non-flammable surface - wooden tables, carpeted floors, and bedding are not recommended charging surfaces.

Disposal

- Do not dispose of lithium-ion batteries in household trash or recycling bins.
- Recycle batteries at certified collection centers. Visit www.call2recycle.org to find a location near you.

FCC Information

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

ISED Information

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) L'appareil ne doit pas produire de brouillage;
- (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

CAN ICES-3 (B) / NMB-3(B)

RF Exposure Compliance

The equipment complies with FCC/IC Radiation exposure limit set forth for uncontrolled environment. The device shall be operated and installed without restriction.

Cet équipement est conforme aux limites d'exposition aux rayonnements établies par la FCC/IC pour un environnement non contrôlé. Son utilisation et son installation ne sont assujetties à aucune restriction.
