Material: 85 gsm WF paper
Aug. 28, 2026

FRONT

Model: VB14 Series
True Wireless Earbuds

CHARGE 2 HOURS
BEFORE USE

POWER ON/OFF

- Press and hold the Multi-Function Button (MFB) on both earbuds for 3 seconds to turn ON.
- Press and hold either Multi-Function Button for 5 seconds to turn the earbuds OFF.

Bluetooth® Pairing

- When the earbuds are ON, they will automatically enter pairing mode. (Note: Once phone pairing successfully, left and right earbud blue & red LED turn off.)
 - Select 'ekids VB14' on your Bluetooth-enabled device to connect. A voice prompt will sound to indicate pairing is complete. Earbuds will automatically connect to your Bluetooth device whenever it is in range.
 - To reset Bluetooth, press the MFB on the left earbud 4 times while in pairing mode.
- Auto power off: The earbuds will power off automatically if no music plays for 5 minutes.

FCC Information

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- CAN ICES-3 (B)/NMB-3(B)

ISED statements

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

RF Exposure Compliance

The equipment complies with FCC/IC Radiation exposure limit set forth for uncontrolled environment. The device shall be operated and installed without restriction.

ONE YEAR LIMITED WARRANTY

THIS IS NOT A TOY.
