Nemko Canada Inc.
303 River Road
Ottawa, Ontario, Canada
K1V 1H2

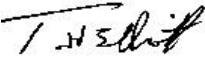

FCC ID: ENPRADPVHF

Product Name: Radius+ VHF

RE: The justification will be provided from the client to state the AMP will be used only with the transmitter source with only N-type of connection between those two devices.

The Radius+ VHF signal amplifier and 195M transceiver devices were designed to operate together as a single TNB-class system. The Radius+ VHF will only be marketed and sold with the 195M transceiver as the signal source, utilizing high quality TNC RF connectors and provided coaxial cable. The FCC ID will be applied to both devices. The two devices are never used separately.
