

Black built-in Camera

The image displays two views of a disassembled electronic device, likely a handheld PDA or similar rugged device. The top view shows the back of the device, featuring a white protective layer and a central yellow component. The bottom view shows the front of the device, revealing a green circuit board with various components, including a microcontroller, memory, and connectors. A yellow ruler is placed below the device for scale.

The image displays two views of a disassembled tablet. The top view shows the back cover, which is black with a white, textured central area. A small, gold-colored component is visible on the right side of the white area. The bottom view shows the internal components, including a green circuit board with various electronic components, a battery, and a white plastic frame. A yellow ruler is placed at the bottom of the image for scale.
