Request for Class II Permissive Change

January 15, 2015

Federal Communication Commission
Equipment Authorization Division
Application Processing Branch
7435 Oakland Mills Road
Columbia, Maryland 21046

FCC ID : EW4DWMW314
Applicant: Mitsumi Electric Co Ltd

To Whom It May Concern:

This is to request a Class II permissive change for FCC ID: EW4DWMW314, originally granted on 11/30/2014.

We granted full modular approval without SAR testing as mobile use. However, this module will be used in specific portable host devices, therefore we performed the SAR testing with host device, confirmed that this product still meets the minimum requirements of the applicable rules of FCC DTS. Please refer to the test report submitted with this application.

For DSS, this module is exempt from RF exposure SAR evaluation as its output power meets the exclusion limits stated in KDB 447498 D01 General RF Exposure Guidance v5. Please refer to the SAR Test Report.

Meanwhile we submit the following documents related to this change. There is no change before and after change except for these documents.

☒	SAR Test Report
☐	External Photo
☐	Internal Photo
☒	User Manual
☐	Label drawing/ location
☐	Block Diagram
☒	Specification
☐	Schematic Diagram
☐	Parts List

Thank you for your attention to this matter.

Sincerely,

Masashi Tsuchida
Mitsumi Electric Co Ltd
