Temperature sensor

High-resolution, 5-inch color LCD screen

High-resolution, 5-inch color LCD screen

Clearly see every little move right from the parent unit. When you check in on your baby, you'll feel like you've never left the room.

Night light on baby unit

A soothing light on the baby unit gently illuminates a dark nursery. Choose from three different colors. Enable the Auto-on feature to turn the night light on when noise is detected to help soothe your baby back to sleep.

Soothing sounds and lullabies

Five calming melodies and four soft ambient sounds, including a trickling stream and white noise, help your baby slip into a sweet slumber.

Two-way, talk-back intercom

Sometimes all your baby needs is to hear the sound of your voice. Comfort your infant from any room with the built-in intercom on the portable parent unit.

Temperature sensor

Keep your little one cozy. The temperature indicator on the parent unit lets you know when it's time to adjust the thermostat.

Up to 1,000 feet of range

Wall-mountable

Automatic infared night vision
