

BASIC OPERATION

After powering up your video monitor, the parent unit streams live video in direct mode. We recommend you follow the instructions on screen to set up home Wi-Fi network with your monitor for functionality enhancements and mobile access. See **Auto software and firmware update** and **Download app for mobile access** in this quick start guide.

Use the menu

Press **MENU** on the parent unit to enter the main menu, choose a menu item, or save a setting. You can use the parent unit menu for advanced settings or operations, such as to play or stop lullaby, or adjust the motion and sound detection settings.

While in the menu:

- Press **▲**, **▼**, **◀** or **▶** to scroll among the menu options.
- Press **SELECT** to select an item.
- Press **TALK** / **↔** to return to the live video.
- Press **Q** to go to the **Help & info** page.

Adjust parent unit speaker volume

Press **-VOL** / **VOL+** to adjust your parent unit speaker volume. It determines the volume of sound that plays from your parent unit.

Zoom

Press **Q** to zoom in or out.

Talk to your baby via the baby unit

- Press and hold the **TALK** key.
- When the **TALK** icon displays on screen, speak to your parent unit. Your voice is transmitted to the baby unit.
- When finish talking, release the **TALK** key and hear your baby again.

Adjust baby unit speaker volume

- Press **MENU**.
- Go to **General settings**.
- Press **▼** to scroll to **Camera Volume**.
- Press **◀** to decrease and **▶** to increase the baby unit's speaker volume.

Turn on/off the parent unit screen

Turn on or off the parent unit screen without powering off the parent unit. You will still hear sounds from the baby unit.

- Press **POWER** on the parent unit to turn off the screen.
- Press any key on the parent unit to turn the screen on again.

TIP

You can reset the parent unit by pressing the **RESET** key at the back of the unit.

Use a pin and insert it into the RESET hole at the back of the parent unit, and then press the button inside.

TEST THE SOUND LEVEL AND POSITION THE HD VIDEO MONITOR

Notes

- This HD video monitor is intended as an aid. It is not a substitute for proper adult supervision, and should not be used as such.

Testing the sound level of the HD video monitor

CAUTION

- For hearing protection, make sure the parent unit is more than 3 feet (1m) away from the baby unit. If you hear a feedback noise from the parent unit, move the parent unit further away until the noise stops. You can also press **-VOL** on the parent unit to lower or mute the noise.

TIP

- Increase the parent unit speaker volume if you cannot hear the sounds transmitted from the baby unit.

Positioning the HD video monitor

CAUTION

- Keep the baby unit out of the reach of your baby. Never place or mount the baby unit inside the baby's cot or playpen.

- Place the baby unit more than 3 feet (1m) away from your baby.

- Adjust the angle of the baby unit to aim at your baby.

- To avoid causing a feedback noise from your HD video monitor:
 - Make sure your baby unit and parent unit are more than 3 feet (1m) apart; OR
 - Turn down the volume of your parent unit.

MOUNT THE BABY UNIT (OPTIONAL)

Notes

Check for reception strength and camera angle of the baby unit before drilling the holes.

- The types of screws and anchors you need depend on the composition of the wall. You may need to purchase the screws and anchors separately to mount your baby units.

- Place the wall mount bracket on a wall and then use a pencil to mark two holes in parallel. Remove the wall mount bracket and drill two holes in the wall (7/32 inch drill bit).

- If you drill the holes into a stud, go to step 3.
- If you drill the holes into an object other than a stud, insert the wall anchors into the holes. Tap gently on the ends with a hammer until the wall anchors are flush with the wall.

- Align the wall mount bracket and screws with the holes in the wall as shown. Tighten the screw in the middle hole first, so that the wall mount bracket position is fixed. You can tighten the other screw in the top hole.

- Place the baby unit on the wall mount bracket, and then slide it forward until it locks into place. Connect the power adapter to the baby unit and a power supply.

- Place the baby unit on the wall mount bracket, and then slide it forward until it locks into place. Align the holes on the wall mount bracket with the screws on the wall, and slide the wall mount bracket down until it locks into place.

- You can maximize your baby unit's viewing angles by tilting the wall mount bracket.

Tilt the baby unit, and then rotate the knob in anticlockwise direction. This will loosen the joint of the wall mount bracket. Tilt your baby unit up or down to adjust to your preferred angle. Then, rotate the knob in clockwise direction to tighten the joint and secure the angle.

THE RBRC SEAL

The RBRC seal on the lithium-ion battery indicates that VTech Communications, Inc. is voluntarily participating in an industry program to collect and recycle these batteries at the end of their useful lives, when taken out of service within the United States and Canada. The program provides a convenient alternative to placing used lithium-ion batteries into the trash or municipal waste, which may be illegal in your area.

VTech's participation makes it easy for you to drop off the spent product at local retailers participating in the program and authorized VTech product service centers. Please call **1 (800) 8 BATTERY** for information on Li-ion battery recycling and disposal bans/restrictions in your area. VTech's involvement in this program is part of its commitment to protecting our environment and conserving natural resources.

The **RBRC Seal** and **1 (800) 8 BATTERY** are registered trademarks of Call2Recycle, Inc.

FCC AND IC REGULATIONS

FCC Part 15

NOTE: This equipment has been tested and found to comply with the requirements for a Class B digital device under Part 15 of the Federal Communications Commission (FCC) rules. These requirements are intended to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING: Changes or modifications to this equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, which may cause undesired operation.

To ensure safety of users, the FCC has established criteria for the amount of radio frequency energy that can be safely absorbed by a user or bystander according to the intended usage of the product. This product has been tested and found to comply with the FCC criteria. The baby unit shall be installed and used such that parts of all persons' body are maintained at a distance of approximately 8 in (20 cm) or more. The transmitter and antenna of the parent unit shall be held at least 1 in (2.5 cm) from your face.

This Class B digital apparatus complies with Canadian requirement: CAN ICES-3 (B)/NMB-3(B).

Industry Canada

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: (1) This device may not cause interference; (2) This device must accept any interference that may cause undesired operation of the device.

The term "IC" before the certification/registration number only signifies that the Industry Canada technical specifications were met. This product meets the applicable Innovation, Science and Economic Development Canada technical specifications.

RF radiation exposure statement

The product complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. The baby unit should be installed and operated with a minimum distance of 8 in (20 cm) between the baby unit and all persons' body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines. This equipment complies also with Industry Canada RSS-312 with respect to Canada's Health Code 6 for Exposure of Humans to RF Fields.

CALIFORNIA ENERGY COMMISSION BATTERY CHARGING TESTING MODE

This video monitor meets the California Energy Commission (CEC) regulations for energy consumption. Your video monitor is set up to comply with the energy-conserving standards right out of the box.

Follow the instructions to install and charge the battery. The CEC battery charging testing mode is activated while charging. Even if the parent unit is paired to camera units, the CEC battery charging testing mode is activated while it is powered off and charging.

FOR CETL COMPLIANCE ONLY

La plaque signalétique appliquée est située au bas du socle de l'appareil, car il pourrait entrer en contact avec des points de tension dangereux ou causer des courts-circuits qui peuvent dégrader en incendie ou en risques d'électrocution. Ne renversez jamais de liquide dans ce produit.

- Observez toutes les instructions et mises en garde inscrites sur l'appareil.
- L'installation par un adulte est requise.
- MISE EN GARDE:** N'installez pas l'unité du bébé à une hauteur supérieure à 2 mètres.
- Ce produit n'est pas conçu pour être un dispositif d'appoint seulement; il n'est pas le remplacement d'une supervision responsable et adéquate par un adulte et ne devrait pas être utilisé comme telle.
- Ce produit n'est pas conçu pour être utilisé en tant que moniteur médical.
- Il existe un très faible risque de perte de confidentialité avec certains appareils électroniques autres écouteurs, téléphones sans fil, etc. Pour éviter, s'assurer que le produit n'a jamais été utilisé avant l'achat, réinitialiser l'unité de façon périodique, éteindre l'écouteur bébé quand il n'est pas en cours d'utilisation.
- Il existe un très faible risque de perte de confidentialité avec certains appareils électroniques autres écouteurs, téléphones sans fil, etc. Pour éviter, s'assurer que le produit n'a jamais été utilisé avant l'achat, réinitialiser l'unité de façon périodique, éteindre l'écouteur bébé quand il n'est pas en cours d'utilisation.
- Les enfants devraient être supervisés afin de vous assurer qu'ils ne jouent pas avec l'appareil.
- Les petites pièces de ce moniteur peuvent être avalées par les bébés ou les petits enfants. Veuillez tenir ces pièces hors de portée des enfants.
- Le produit n'est pas conçu pour être utilisé par des personnes (incluant des enfants) aux capacités physiques, sensorielles ou mentales réduites ou qui manquent d'expérience et de connaissances, à moins qu'un leur ait donné suffisamment de supervision ou d'instructions relativement à l'utilisation de l'appareil par une personne responsable de leur sécurité.

- Mises en garde:**
 - Utiliser et entreposer le produit à une température entre 0°C (32°F) et 40°C (104°F).
 - Risque de brûlure, risque d'incendie, risque d'explosion associé à une mauvaise manipulation de la batterie.
 - N'exposez pas cet appareil à des frottements ou des chocs extrêmes, ainsi qu'à la lumière directe du soleil. Ne l'installez pas près d'une source de chauffage.

CONSERVEZ CES INSTRUCTIONS

- Utiliser et entreposer le produit à une température entre 0°C (32°F) et 40°C (104°F).
- Risque de brûlure, risque d'incendie, risque d'explosion associé à une mauvaise manipulation de la batterie.
- N'exposez pas cet appareil à des frottements ou des chocs extrêmes, ainsi qu'à la lumière directe du soleil. Ne l'installez pas près d'une source de chauffage.

Informations sur les adaptateurs électriques:
Type: 3V CC/LA
Modèle: V705EUS05100
Série: 3V CC/LA
VTech Telecommunications Ltd.
Modèle: V707EUS05100

Informations sur les piles rechargeables:
3.7V 5000mAh, Lithium-ion batterie
Guangzhou Great Power Energy & Technology Co., Ltd.
Modèle: GSPB06090-SAN-3.7V-51P

Lorsqu'ils sont branchés dans une prise de courant, les adaptateurs électriques peuvent causer des interférences avec votre caméra IP. Essayez d'installer votre caméra IP le plus loin possible de ces dispositifs électroniques: routeurs sans fil, radios, téléphones cellulaires, interphones, moniteurs de pièces, téléviseurs, ordinateurs personnels, appareils électroniques de cuisine et téléphones sans fil.

Stimulateurs cardiaques implantés dans l'organisme
Les stimulateurs cardiaques (ne s'applique qu'aux dispositifs numériques sans fil).

L'organisme Wireless Technology Research, LLC (WTR), et l'organisme Wireless Technology Research, LLC (WTR), ont été déclarés responsables des interférences entre les téléphones sans fil et les stimulateurs cardiaques implantés.

Appuyez sur l'Administration des aliments et drogues (FDA) des États-Unis la firme WTR recommande aux médecins:

Avs aux détenteurs de stimulateurs cardiaques
• Vous devriez maintenir les dispositifs sans fil à au moins six pouces du stimulateur cardiaque.

• Ils ne doivent PAS placer le téléphone sans fil directement sur le stimulateur cardiaque, ni que dans une poche de chemise, lorsque celui-ci est en marche.

L'étude effectuée par l'organisme WTR n'a pas identifié de risque pour les personnes utilisant des appareils sans fil pour les gens qui utilisent des dispositifs sans fil à proximité de ceux-ci.

Champs électromagnétiques (EMF)
Ce produit de VTech est conforme à toutes les normes se rapportant aux champs électromagnétiques (EMF) standard. Si vous le manipulez correctement en suivant les instructions de ce guide, son exposition sera sécuritaire pendant de nombreuses années, selon les performances pas à proximité ni au-dessus d'une source de chaleur ou d'un calorifère. De plus, ne placez pas l'appareil dans un endroit avant de vous assurer qu'il ait une bonne circulation d'air.

TEST THE LOCATION FOR THE BABY UNIT

If you plan to install your baby unit in a designated location, and use your home Wi-Fi network to connect your video monitor, you need to test which of your selected monitoring areas within the house have good Wi-Fi signal strength. After you have powered on your parent unit, you can use your parent unit's **Wi-Fi signal indicator** to assist in checking. Once you have identified the suitable location, you can install your baby unit. Adjust the distance between your baby unit and the Wi-Fi router if needed.

TIP

- Depending on surroundings and obstructing factors that affect signal strength, such as distance and internal walls, you may experience reduced Wi-Fi signal. To improve the Wi-Fi signal strength, adjust the distance or direction of your parent unit. Check with your parent unit again.

GENERAL PRODUCT CARE

To keep this product working well and looking good, follow these guidelines:

- Avoid puffing it near heating appliances and devices that generate electrical noise (for example, motors or fluorescent lamps).
- DO NOT expose it to direct sunlight or moisture.
- Avoid dropping the product or treating it roughly.
- Clean with a soft damp cloth.
- DO NOT immerse the parent unit and the baby unit in water and do not clean them under running water.
- DO NOT use cleaning spray or liquid cleaners.
- Make sure the parent unit and the baby unit are dry before you connect them to the mains again.

TECHNICAL SPECIFICATIONS

Frequency control	Crystal controlled PLL synthesizer
Transmit frequency	Baby unit: 2412 - 2462 MHz Parent unit: 2412 - 2462 MHz
Channels	11
LCD	5" Color LCD (IPS 1280x720 pixels)
Nominal effective range	Maximum power allowed by FCC and IC. Actual operating range may vary according to environmental conditions at the time of use.
Power requirements	Parent unit: 3.7V 5000mAh 18.5Wh Li-ion battery Baby unit power adapter: Output: 5V DC @ 1A Parent unit power adapter: Output: 5V DC @ 2A
