IMPORTANT SAFETY INSTRUCTIONS

- The applied nameplate is located at the bottom of the baby unit base. When in use, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:
- Follow all warnings and instructions marked on the product.
 - Adult setup is required.
 - CAUTION:** Do not install the baby unit at a height above 6.5 feet (2 meters).
 - This product is intended as an aid. It is not a substitute for responsible and proper adult supervision and should not be used as such.
 - This product is not intended for use as a medical monitor.
 - Do not use this product near water, for example, near to a bath, sink, swimming pool or shower.
 - CAUTION:** Use only the internally, non-user-replaceable battery fitted to the parent unit. There may be a risk of explosion if a wrong type of battery is used for the parent unit. The battery cannot be subjected to high or low extreme temperature and low pressure at high altitude during use, storage or transportation. Disposal of batteries in fire or a hot oven, mechanically crushing or cutting the battery can result in an explosion. Subjecting products or batteries to an extremely high temperature environment can result in explosion or leakage of flammable liquids, or gas. Products or batteries subjected to extremely low air pressures may result in explosion or leakage of flammable liquids, or gas. Dispose of used batteries according to the information in **The RBR seal**.
 - Use only the power adapters supplied with this product. Incorrect power adapter polarity or voltage can seriously damage the product.

Power adapter information:
Baby Unit Output: 5V DC 1A
VTech Telecommunications Ltd.
Model: VT0SEUS05100
Parent Unit Output: 5V DC 2A
VTech Telecommunications Ltd.
Model: VT0TEUS05200

Rechargeable battery information:
3.7V 5000mAh, 18.5Wh Lithium-ion battery
Zhuhai Great Power Energy Co., Ltd.
Model: G5P806090-5AH-3.7V-151P

- The power adapter is intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.
 - For pluggable equipment, the socket-outlet (power adapter) should be installed near the equipment and should be easily accessible.
 - Unplug this product from the wall outlet before cleaning. Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning.
 - Do not modify the power adaptors or replace with other third-party adaptors.
 - Do not allow anything to rest on the power cords. Do not install this product where the cords may be walked on or damaged.
 - The product should only be operated from a power source indicated on the power adapter label or marking. If you are unsure of the type of power supply in your home, consult your dealer or electricity supply provider.
 - Do not overload wall outlets or use an extension cord.
 - Do not place this product on an unstable table, shelf, stand or other unstable surfaces.
 - This product should not be placed in any area where proper ventilation is not provided. Any slots or openings in the back or bottom of this product are provided for ventilation. To protect from overheating, openings must not be blocked by placing the product on a soft surface such as a bed, sofa or rug. This product should never be placed near or over a radiator or heat source.
- SAVE THESE INSTRUCTIONS**
- Cautions**
- Use and store the product at a temperature between 32°F (0°C) and 104°F (40°C).
 - Mishandling batteries can cause burn, fire or explosion hazards.
 - Batteries should not be exposed to excessive heat such as bright sunshine or fire.
 - Do not expose the product to extreme cold, heat or direct sunlight. Do not place the product close to a heating source.
- Warning—Strangulation Hazard—Children have STRANDED in cords. Keep this cord out of the reach of children (more than 3 ft (0.9m) away). Do not remove warning label on the adapter cord.**
- Never place the camera unit(s) inside the baby's crib or playpen. Never cover the camera unit(s) or parent unit with anything such as a towel or a blanket.
 - Other electronic products can cause interference to your parent unit and baby unit. Try installing your baby unit as far away as possible from the following electronic devices: wireless routers, radios, mobile telephones, intercoms, room monitors, televisions, personal computers, kitchen appliances (e.g. microwave ovens) and cordless telephones.
- Precautions for users of implanted cardiac pacemakers**
Cardiac pacemakers (applies only to digital cordless devices): Wireless Technology Research, LLC (WTR), an independent research entity, led a multidisciplinary evaluation of the interference between portable wireless devices and implanted cardiac pacemakers. Supported by the U.S. Food and Drug Administration, WTR recommends to physicians that:
- Pacemaker patients**
 - Should keep wireless devices at least six inches from the pacemaker.
 - Should NOT place wireless devices directly over the pacemaker, such as in a breast pocket, when it is turned ON.
 - WTR's evaluation did not identify any risk to bystanders with pacemakers from other persons using wireless devices.
- Electromagnetic fields (EMF)**
This VTech product complies with all standards regarding electromagnetic fields (EMF). If handled properly and according to the instructions in this user's manual, the product is safe to be used based on scientific evidence available today.

CONNECT, CHARGE AND POWER ON THE BABY MONITOR

- Connect the parent unit and baby unit to the adapter and mains supply.
The parent unit turns on automatically after connecting to the power socket, and the welcome screen appears. You can **press and hold POWER** to turn it on or off.

- Slide the **ON/OFF** switch leftward to power on your baby unit.

- For optimum reception, always raise the parent unit antenna.

NOTES

- Please peel off the lens/screen protector before use.
- Charge the parent unit battery before use.
- When powering up, the baby unit's orange status LED turns on. It will turn off after a while and remain off if the status LED is set to off.
- The status LED is set to off by default. You can turn it on using the app (Setting > Camera Setting > LED status).
- The baby unit may get warm during use. This is normal.

DOWNLOAD APP FOR MOBILE ACCESS

Use the **MyVTech Baby Plus** on your mobile phone to monitor your baby remotely. Follow the instructions below to set up and pair your baby monitor with the app.

- Scan the QR code to download the free **MyVTech Baby Plus** mobile app, or search "MyVTech Baby Plus" on App Store or Google Play Store. If you have previously installed the app, ensure that you have the latest version.

NOTE

- Make sure your mobile phone meets the minimum requirement for the mobile app.

Minimum requirement

- The mobile app is compatible with:
 - Android™ 9.0 or later; and
 - iOS 14 or later.

- Tap to launch the mobile app on your device and create an account.
- We recommend that you use common webmail services, such as Google Gmail, to register your user account. Check your email (including the Spam folder) and activate your new account by entering the email verification code. Then, sign in to your account.
- Ensure that you are connected to a **2.4GHz Wi-Fi network** and have enabled **Bluetooth** and **Location Service** on your device.
- After signing in to the app, select **Camera(s) with Parent unit** and scan the QR code displayed on the parent unit. To find the QR code, press the **MENU/SELECT** button and go to > **Connect to Mobile App**.
- Input the Wi-Fi password.
- Press and hold** the pair key on the baby unit for 3 seconds until you hear the beep sound to enter pairing mode.
- Select the camera model that appears in the app and wait for the camera to connect. Once connected, it will display a live view preview.
- Select **"Continue"** and create a profile for your baby (Optional). Now you can start monitoring! (For models with 2 cameras, a pop-up will ask if you wish connect another camera. Repeat steps 7-9 for the second camera.)

TIP

Use **Camera Sharing** to instantly share access to the camera. Follow these steps:

- Go to **Menu** and select **Camera Sharing**.
- Choose **"Invite People"** and enter the name and email address of the family member's app account.
- The family member will receive a pop-up notification in the app and can accept the invitation to access the camera(s).

HOW THE SYSTEM WORKS

- Tip** To receive product firmware updates, this baby monitor requires connecting to a **2.4GHz home Wi-Fi network**.

Direct mode

Your baby monitor parent unit and baby unit connect to each other in **Direct mode** by default, which allows you to immediately stream video out of the box.

Wi-Fi mode

To enhance your experience and enjoy seamless live video streaming via your mobile app, and to receive product software updates (when available), we highly recommend setting up your monitor's Wi-Fi connection.

It uses your 2.4GHz home Wi-Fi network to connect your video monitor and supports live video streaming through the mobile app.

To stream live video remotely with your mobile phone, download and install the **MyVTech Baby Plus** mobile app. With the mobile app, your Wi-Fi router (not included) provides Internet connectivity to your HD video monitor system. It serves as a communication channel between your baby unit and mobile phone, allowing you to monitor and/or control your baby unit wherever you are. For more details, see **Download app for mobile access** section in this quick start guide.

CABLE MANAGEMENT

OVERVIEW

Baby unit overview

- Microphone**
- Camera lens**
- Light sensor**
- LED indicators**

Set to off by default. You can turn it on using the app (Setting > Camera Setting > LED status).

- In direct mode:
- Orange is steadily on when the baby unit is connecting to the parent unit.
 - Orange flashes slowly during video streaming.
- In Wi-Fi mode:
- Green is steadily on when the baby unit is connected to Wi-Fi.
 - Green flashes slowly during video streaming to Wi-Fi.

- Infrared LEDs**
 - Allow you to see clearly in a dark environment.
- ON/OFF switch**
- Antenna**
 - Connect to router with Wi-Fi.
- Speaker**
- Temperature sensor**
- Power jack**
- Threaded socket**
- Pair/reset button**

- To enter pairing mode, **press and hold the PAIR key** for three seconds until you hear a beep sound. Then follow the app instructions to connect the camera to a 2.4GHz Wi-Fi network.
- To reset the baby unit, **press and hold the PAIR key** until you hear a beep sound. Release the **PAIR key** and then press and release a further five times until you hear another beep sound. The baby unit will emit another beep when the reset is complete. After the beep sound, the baby unit will reboot itself.

Parent unit overview

- LED light**
 - On when the parent unit is connected to AC power, or the battery is charging.
 - Flashes when the parent unit battery is low and needs to be charged.
 - Off when the parent unit is disconnected from AC power.
- LINK LED light**
 - On when the parent unit is linked to the baby unit.
 - Flashes when the link to the baby unit is lost.
- LED light**
 - On when the parent unit speaker volume is set to off.
 - On when the parent unit is talking to the baby unit.
- TALK LED light**
 - On when the parent unit is talking to the baby unit.
- LCD display**
- Microphone**
- LCD ON/OFF**
- POWER**
- Lullaby**
 - Press to enter the lullaby menu.
- TALK**
 - Press and hold to talk to the baby unit.
 - is displayed on screen while the button is pressed.
 - While in a submenu, press to exit.
- Arrow keys**
 - or Press to navigate leftward, upward, rightward or downward, within the main menu and sub-menus.
 - Press to move the baby unit camera leftward, rightward, upward or downward.
- MENU/SELECT**
 - Press to enter the main menu.
 - While in a menu, press to confirm a selection, or save a setting.
- Zoom in**
 -
- Zoom out**
 -
- VOL/ VOL+**
 - Increase, decrease or mute the parent unit volume.
- Power jack**
- Antenna**
- Speaker**
- Battery compartment cover**
- Stand**

PARENT UNIT ICONS

Main Menu	Sub-menu	Options
		Monitoring mode (For VM901-2HD only) - View baby units in Single mode. - View baby units in Patrol mode (switch view every 10 seconds). - View baby units in Split screen.

Wi-Fi mode - The signal icon(s) on the left indicate the baby unit is connected to a home Wi-Fi network. The red icon(s) indicates no connection. - Baby unit 1 and 2 are being viewed in Patrol mode (For VM901-2HD only). - Baby unit 1 and 2 are being viewed in Split mode (For VM901-2HD only).

PROTECT YOUR PRIVACY AND ONLINE SECURITY

VTech cares about your privacy and peace of mind. That's why we've put together a list of industry-recommended best practices to help keep your wireless connection private and your devices protected when online. We recommend you carefully review and consider complying with the following tips.

Ensure your wireless connection is secure.

- Before installing a device, ensure your router's wireless signal is encrypted by selecting the "WPA2-PSK with AES" setting in your router's wireless security menu.

- Change default settings.
- Change your wireless router's default wireless network name (SSID) to something unique.
 - Change default passwords to unique, strong passwords. A strong password:
 - Is at least 10 characters long.
 - Is complex.
 - Does not contain dictionary words or personal information.
 - Contains a mix of uppercase letters, lowercase letters, special characters and numbers.

Keep your devices up to date.

- Download security patches from manufacturers as soon as they become available. This will ensure you always have the latest security updates.
- If the feature is available, enable automatic updates for future releases.

Disable Universal Plug and Play (UPnP) on your router.

- UPnP enabled on a router can limit the effectiveness of your firewall by allowing other network devices to open inbound ports without any intervention or approval from you. A virus or other malware program could use this function to compromise security for the entire network.
