

[illegible] BASIC OPERATION - PARENT UNIT

- Press **←** or **→** to scroll among the menu options.
- Press **≡** to select an item, or to save a setting.
- Press **▲** or **▼** to scroll among the sub-menus, or to adjust a setting.
- Press **←** to return to the previous menu options without changing the current setting.
- Press **↺**/TALK to return to live video.

Press and hold TALK and speak to your parent unit. Your voice is transmitted to the baby unit. Release **TALK** when finished talking and hear your baby again.

- Press any key on the parent unit to turn the screen on again.

Press /POWER to put the monitor display to sleep. The screen will be switched off, and you will still hear sounds from the baby unit.

Cardiac pacemakers and implanted cardiac pacemakers
Cardiac pacemakers (applies only to digital cardiac devices)
The VTECH Technology Research, LLC (VTR), an independent research entity, led a multidisciplinary evaluation of the VTECH's portable wireless devices and implanted cardiac pacemakers. Supported by the U.S. Food and Drug Administration, VTR recommends to physicians the following:

Pacemaker patients

- Should keep wireless devices at least six inches from the pacemaker.
- Should NOT place wireless devices directly over the pacemaker, such as in a breast pocket, when it is turned on.

VTR's evaluation did not identify any risk to bystanders with portable wireless devices using wireless devices.

Electromagnetic fields (EMF)
The VTECH product complies with all standards regarding electromagnetic fields (EMF). If handled properly and according to the instructions in this user's manual, the product is safe to be used based on scientific evidence available today.

NOTES

- The rechargeable battery in the parent unit is built-in.
- Use only the power adapters supplied with this product.
- Make sure the baby monitor is not connected to a switch-controlled electric outlet.
- Connect the power adapters in a vertical or floor mount position only. The adapters' prongs are not designed to hold the weight of baby monitor, so do not connect them to any ceiling, under-the-table, or cabinet outlets. Otherwise, the adapters may not properly connect to the outlets.
- Make sure the parent unit, the baby units and the power adapter cords are out of reach of children.

VM924-a

BATTERY INDICATORS	BATTERY STATUS	ACTION
The screen displays . The LED light flashes.	The battery has very little power and can only be used for a short time.	Charge without interruption (about 30 minutes).
The battery icon becomes solid .	The battery is fully charged.	To keep the battery charged, connect the unit to AC power when not in use.

- Slide the **ON/OFF** switch to power on or off your baby unit.
- Press and hold POWER** to power on or off your parent unit.

CAUTION

- Keep the baby unit out of the reach of your baby. Never place or mount the baby unit inside the baby's crib or playpen.

1

2

3

4

5

CAUTION

- The default volume of your parent unit is level 3, and the maximum volume is level 5. If you experience high-pitched screeching noise from your baby monitor while positioning:
 - Make sure your baby unit and parent unit are more than 3 feet (1 meter) apart.
 - Turn down the volume of your parent unit.

6

NOTE

- To avoid interference from other electronic devices, place your baby monitor at least 3 feet (1 meter) away from devices such as wireless routers, microwaves, cell phones and computers.

7

Once you power on both your baby unit and parent unit, your parent unit displays image from the baby unit, and the **LINK** LED light turns on.

The baby unit's **POWER** LED light turns on.

- battery is fully charged.
- battery is low and needs charging.

SOUND SENSITIVITY AND SOUND ACTIVATION

Adjust sound detection sensitivity

You can turn on **Sound activation** and adjust the **VOX sensitivity** to detect sounds and turn on the parent unit screen when its screen is switched off or dimmed.

When the baby unit detects sounds that exceed certain levels, the parent unit screen will turn on and the baby unit starts transmitting the sounds to the parent unit, and you can see and hear your baby.

If you turn off **Sound activation**, you will hear sounds from the baby unit all the time, even when the parent unit screen is switched off.

If you have turned on sound alert, the parent unit beeps when the baby unit detect sounds while in **Split mode** (For pairing with VM924-2 only).

VOX SENSITIVITY LEVEL	Level 5 (Highest)	Level 4 (High)	Level 3 (Medium)	Level 2 (Low)	Level 1 (Lowest)
Documentation	(Default setting) The parent unit screen and speaker turn on for very small sounds, including background noises from your baby's room.	The parent unit screen and speaker turn on for soft babbling and louder sounds from your baby. The parent unit remains quiet when your baby makes soft sounds.	The parent unit screen and speaker turn on for loud babbling and louder sounds from your baby. The parent unit remains quiet when your baby makes soft sounds.	The parent unit screen and speaker turn on for crying or screaming sounds from your baby. The parent unit remains quiet when your baby makes soft sounds.	The parent unit screen and speaker turn on for loud crying or screaming sounds from your baby. The parent unit remains quiet when your baby makes soft sounds.

Sound activated screen and audio

When **Sound activation** is on, the parent unit screen stays off to save power when the baby unit detects no sound.

Once the baby unit detects sounds that are louder than the chosen sound sensitivity level, the parent unit screen and speaker turn on automatically. The parent unit will then turn off again after 50 seconds of no sound detection.

NOTE

- If you have muted the parent unit speaker, only the parent unit screen will turn on when a sound is detected.

DIM MODE

The parent unit display will dim to conserve energy after 10 minutes of inactivity, in which there is neither key pressed nor alert received from the baby unit.

10 mins inactive
Press any button

NIGHT VISION

The baby unit has infrared LEDs that allow you to see your baby clearly at night or in a dark room. When the baby unit being viewed detects low light levels, the infrared LEDs are switched on automatically. The images from the baby unit are in black and white, and appears on the screen.

NOTES

- It is normal to see a short white glare on your parent unit screen as the baby unit is adapting to the dark environment.
- When the infrared LEDs are on, the images are in black and white. This is normal.
- Depending on the surroundings and other interfering factors, like lighting, objects, colors and backgrounds, the display resolution may vary. Adjust the baby unit's angle or place the baby unit at a higher level to prevent glare and blurry display.

FOR VM924-2 ONLY

Status check - Two baby units

If you are viewing baby unit 1, the **POWER LED** light of baby unit 1 turns on. As baby unit 2 is not being viewed, its **POWER LED** light flashes.

NOTE

- If you power on only one baby unit, your parent unit may display 1 and the **LINK LED** light will flash.

Change different views - Single CAM

To switch between the image of baby units 1 and 2:

- Press **Monitoring mode menu**.
- Select the baby unit you would like to view.

Change different views - Patrol

Select **Patrol** as your monitoring mode to alternately view the image from baby units 1 and 2 every 10 seconds.

Change different views - Split

Select **Split** as your monitoring mode to view the images from both baby units at once.

10s

MOUNT THE BABY UNIT ON DRY WALL (OPTIONAL)

Notes

- Check for reception strength and camera angle before drilling the holes.
- The types of screws and anchors you need depend on the composition of the wall. You may need to purchase the screws and anchors separately to mount your camera units.

1. Align the wall mount bracket and screws with the holes in the wall as shown. Tighten the screw in the middle hole first, so that the wall mount bracket position is fixed. You can tighten the other screw in the top hole.

2. Place the camera unit on the wall mount bracket, and then slide it forward until it locks into place. Connect the power adapter to the camera unit and a power supply not controlled by a wall switch.

3. Drill two holes in the wall (7/32 inch drill bit). If you drill the holes into a stud, go to step 3.

4. If you drill the holes into an object other than a stud, insert the wall anchors into the holes. Tap gently on the ends with a hammer until the wall anchors are flush with the wall.

NOTE

- Check for reception strength and camera angle before drilling the holes.

Place the wall mount bracket on a wall and then use a pencil to mark two holes in parallel.

FREQUENTLY ASKED QUESTIONS

Below are the questions most frequently asked about the baby monitor.

Why does the parent unit not respond normally?

Try the following (in the order listed) for common cure:

1. Disconnect the power to the baby units and the parent unit.
2. Wait a few seconds before connecting power back to the baby units and the parent unit.
3. Turn on the baby units and the parent unit.
4. Wait for the parent unit to synchronize with the baby units. Allow up to one minute for this to take place.

Why doesn't my parent unit charge while connected to AC power?

Perhaps the parent unit is not connected to the power. Insert the appliance plug into the parent unit and put the adapter in a wall socket. Then, **press and hold POWER** to switch on the parent unit and to establish connection with the baby unit.

Why does the parent unit go on when I switch on the unit?

Perhaps the baby unit is not connected to the power. Insert the appliance plug into the baby unit and put the adapter in a wall socket. Then, slide the **ON/OFF** switch to **ON** to switch on the baby unit and to establish connection with the parent unit.

Why doesn't my parent unit charge while connected to AC power?

Make sure the power is not controlled by a wall switch.

Why is my screen in black and white?

The screen is in black and white during night-time or in a dark room when the night vision feature is activated. This is normal.

Why do I get glare or blurry display on my screen when viewing my baby at night?

During night-time or in a dark room, the surroundings and other interfering factors, like lighting, objects, colors and backgrounds may affect the image quality on your parent unit screen. Adjust the baby unit's angle or place the baby unit at a higher level to prevent glare and blurry display.

Why does the baby monitor produce a high-pitched noise?

The parent unit and baby units may be too close to each other.

- Move the parent unit away from the baby units until the noise stops. OR
- Turn down the volume of your parent unit.

Why does the parent unit beep?

The baby units may be out of range. Move the parent unit closer to the baby units (but not less than 3 feet).

The parent unit may not have enough charge for the parent unit to perform normally. Charge the battery in the parent unit until the battery icon becomes solid.

The temperature of your baby's room may be too high or too low.

Why does the parent unit react too quickly to other sounds?

The baby unit also picks up other sounds than those of your baby. Adjust the **VOX sensitivity** to a lower level or lower the parent unit speaker volume.

Why don't I hear a sound? Why can't I hear my baby cry?

The parent unit speaker volume may be too low. See **Adjust parent unit speaker volume** to increase the volume.

You may have set a low **VOX sensitivity** level. See **Adjust the sound sensitivity of the baby unit** to set to a higher level.

Why can't I establish a connection? Why is the connection lost every now and then? Why are there sound interruptions?

Other electronic products and wireless products can cause interference with your baby monitor. Try installing your baby monitor as far away from these devices as possible.

If you power on only one baby unit, your parent unit may display 1 and the **LINK LED** light will flash.

THE RBRC SEAL

The RBRC seal is the on-line battery recycling that Vtech Communications, Inc. is voluntarily participating in an industry program to collect and recycle these batteries at the end of their useful life, when taken out of the product.

The program provides a convenient alternative to placing used Li-ion batteries into the trash or municipal waste, which may be illegal in your area.

Vtech Communications, Inc. is a participant in the RBRC program. Li-ion batteries participating in the program or at authorized Vtech product service centers. Please call 1 (800) 8 BATTERY for information on Li-ion battery recycling and disposal laws/restrictions in your area. Vtech's involvement in this program is part of its commitment to protecting our environment and conserving natural resources.

The RBRC seal and 1 (800) 8 BATTERY are registered trademarks of CalRecycle, Inc.

FCC AND IC REGULATIONS

FCC Part 15

This equipment has been tested and found to comply with the requirements for a Class B digital device under Part 15 of the Federal Communications Commission (FCC) rules. These requirements are intended to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Increase the separation between the equipment and receiver.
2. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
3. Consult the dealer or an experienced radio/TV technician for help.

WARNING: Changes or modifications to this equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

To ensure safety of users, the FCC has established criteria for the amount of radio frequency energy that can be safely absorbed by a user or bystander according to the intended usage of the product. This product has been tested and found to comply with the FCC's safety limits for exposure to radio frequency energy. The FCC has established a maximum exposure limit of approximately 8 in (20 cm) or more. The transmitter and antenna of the parent unit shall be held at least 11.25 cm (4.5 in) from your face.

This Class B digital apparatus complies with Canadian requirements.

Industry Canada

This device complies (licence-exempt transmitter/receiver) that complies with Innovation, Science and Economic Development Canada's licence-exempt RSS (Operation is subject to the following two conditions: (1) This device may not cause interference. (2) This device must accept any interference, including interference that may cause undesired operation of the device.

The term "IC" before the certification number only signifies that the Industry Canada technical specifications are met.

This product meets the applicable Innovation, Science and Economic Development Canada technical specifications.

RF Radiation exposure statement

The product complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. The baby unit should be used as intended and kept away from the body and of other persons. Use of other accessories may not ensure compliance with FCC RF radiation exposure limits. This equipment complies with Industry Canada RSS-302 with respect to Canada's Health Code for Exposure of Humans to RF Fields.

FOR CETL COMPLIANCE ONLY

Measures de sécurité importantes

Les mesures de sécurité appropriées ont été étudiées au bas du socle de l'unité de bébé.

Lorsque vous utilisez votre appareil, vous devez toujours garder certaines mesures de protection de base afin de réduire les risques d'incendie, d'électrocution et de blessures corporelles, dont ceux qui suivent :

1. L'équipement ne peut pas être utilisé si le câble d'alimentation est endommagé.
2. Ne pas utiliser l'appareil si le câble d'alimentation est endommagé.
3. Ne pas utiliser l'appareil si le câble d'alimentation est endommagé.
4. Ne pas utiliser l'appareil si le câble d'alimentation est endommagé.
5. Ne pas utiliser l'appareil si le câble d'alimentation est endommagé.
6. Ne pas utiliser l'appareil si le câble d'alimentation est endommagé.
7. Ne pas utiliser l'appareil si le câble d'alimentation est endommagé.
8. Ne pas utiliser l'appareil si le câble d'alimentation est endommagé.
9. Ne pas utiliser l'appareil si le câble d'alimentation est endommagé.
10. Ne pas utiliser l'appareil si le câble d'alimentation est endommagé.
11. Ne pas utiliser l'appareil si le câble d'alimentation est endommagé.
12. Ne pas utiliser l'appareil si le câble d'alimentation est endommagé.
13. Ne pas utiliser l'appareil si le câble d'alimentation est endommagé.
14. Ne pas utiliser l'appareil si le câble d'alimentation est endommagé.
15. Ne pas utiliser l'appareil si le câble d'alimentation est endommagé.
16. Ne pas utiliser l'appareil si le câble d'alimentation est endommagé.
17. Ne pas utiliser l'appareil si le câble d'alimentation est endommagé.

LIMITED WARRANTY

What does this limited warranty cover?

The manufacturer of this Vtech Product warrants to the holder of a valid proof of purchase ("Consumer" or "you") that the Product and all accessories provided in the sales package ("Products") are free from defects in material and workmanship, pursuant to the following terms and conditions, when installed and used normally and in accordance with the Product operating instructions. This limited warranty extends only to the Consumer for Products purchased and used in the United States of America and Canada.

What will Vtech do if the Product is not free from defects in materials and workmanship during the limited warranty period ("Materially Defective Product")?

During the limited warranty period, Vtech's authorized service representative will repair or replace an Vtech's product without charge, a Materially Defective Product. If we repair the Product, we may use new or refurbished replacement parts. If we choose to replace the Product, we may replace it with a new or refurbished Product of the same or similar design. We will retain defective parts, modules, or equipment. Repair or replacement of the Product, at Vtech's option, is your exclusive remedy. Vtech will return the repaired or replacement Product to you if you working condition. You should expect the repair or replacement to take approximately 10 days.

How long is the limited warranty period?

The limited warranty period for the Product extends for ONE (1) YEAR from the date of purchase. If Vtech repairs or replaces a Materially Defective Product under the terms of this limited warranty, this limited warranty also applies to the repaired or replacement Product for a period of one (1) year from the date the repaired or replacement Product is shipped to you by Vtech or its authorized service representative on the original one-year warranty, whichever is longer.

What is not covered by this limited warranty?

This limited warranty does not cover:

1. Product that has been subjected to misuse, accident, shipping or other physical damage, improper installation, or modification by anyone other than an authorized service representative of Vtech; or
2. Product that has been subjected to misuse, accident, shipping or other physical damage, improper installation, or modification by anyone other than an authorized service representative of Vtech; or
3. Product that has been subjected to misuse, accident, shipping or other physical damage, improper installation, or modification by anyone other than an authorized service representative of Vtech; or
4. Product to the extent that the problem is caused by use with non-Vtech accessories; or
5. Product whose warranty/quality claims, product serial number, parts or electronic serial numbers have been altered, modified, or replaced; or

DISCLAIMER AND LIMITATION OF LIABILITY

Vtech Communications, Inc. and its suppliers assume no responsibility for any damage or loss resulting from the use of this user's manual. Vtech Communications, Inc. and its suppliers assume no responsibility for any loss or claims by third parties that may arise through the use of this product.

Company: Vtech Communications, Inc.
Address: 9001 SW Washington Square Road - Ste 555 Tigard, OR 97223, United States
Phone: 1 (800) 595-9511 in the U.S. or 1 (800) 267-7373 in Canada

How do you get warranty service?

To obtain warranty service in the U.S., please visit our website at www.vtechproducts.com or call 1 (800) 595-9511. In Canada, go to www.vtechcanada.com or call 1 (800) 267-7373.

NOTE: Before calling for service, please review the user's manual - a check of the Product's controls and features may save you a service call.

Except as provided by applicable law, you assume the risk of loss or damage during transit and transportation and are responsible for delivery or handling charges incurred in the transport of the Product(s) to the service location. Vtech will return repaired or replaced Product under this limited warranty. Transportation, delivery or handling charges are prepaid. Vtech assumes no risk for damage or loss of the Product in transit. If the Product failure is not covered by this limited warranty, or proof of purchase does not meet the terms of this limited warranty, Vtech will notify you and will request that you authorize the cost of repair prior to any further repair activity. You must pay for the cost of repair and return shipping costs for the repair of Products that are not covered by this limited warranty.

What must you return with the Product to get warranty service?

The entire original package and contents including the Product to the Vtech service location along with a description of the malfunction or difficulty, and include a "valid proof of purchase" (sales receipt) identifying the Product purchased (Product model) and the date of purchase or receipt; and

1. Provide your name, complete and correct mailing address, and telephone number.

This warranty is the complete and exclusive agreement between you and Vtech. It supersedes all other written or oral communications related to this Product. Vtech provides no other warranties for this Product. The warranty exclusively excludes Vtech's responsibility for any consequential damages. Product. There are no other express warranties. No one is authorized to make modifications to this warranty, which may vary from state to state or province to province.

Limitations: Implied warranties, including those of fitness for a particular purpose and merchantability (an unwritten warranty that the Product is fit for ordinary use) are limited to one year from the date of purchase. Some states/provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation may not apply to you. In no event shall Vtech be liable for any actual, special, incidental, consequential, or similar damages including, but not limited to lost profits or revenue, liability to third parties, or other associated equipment, the cost of substitute equipment, and claims by third parties) resulting from the use of this Product. Some states/provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation may not apply to you.

Please retain your original sales receipt as proof of purchase.
