IMPORTANT SAFETY INSTRUCTIONS

When using your telephone equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:

- Read and understand all instructions.
- Follow all warnings and instructions marked on the product.
- Use only with UL listed Bluetooth devices.
- Unplug this product from the wall outlet before cleaning. Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning.
- CAUTION :** Do not install the telephone base at a height above 2 meters.
- Do not use this product near water such as near a bath tub, wash bowl, kitchen sink, laundry tub or a swimming pool, or in a wet basement or shower.
- Do not place this product on an unstable table, shelf, stand or other unstable surfaces.
- Avoid placing the telephone system in places with extreme temperature, direct sunlight, or other electrical devices. Protect your phone from moisture, dust, corrosive liquids and fumes.
- Slots and openings in the back or bottom of the telephone base and handset are provided for ventilation. To protect them from overheating, these openings must not be blocked by placing the product on a soft surface such as a bed, sofa or rug. This product should never be placed near or over a radiator or heat register. This product should not be placed in any area where proper ventilation is not provided.
- This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply in your home or office, consult your dealer or local power company.
- Do not allow anything to rest on the power cord. Do not install this product where the cord may be walked on.
- Never push objects of any kind into this product through the slots in the telephone base or handset because they may touch dangerous voltage points or create a short circuit. Never spill liquid of any kind on the product.
- To reduce the risk of electric shock, do not disassemble this product, but take it to an authorized service facility. Opening or removing parts of the telephone base or handset other than specified access doors may expose you to dangerous voltages or other risks. Incorrect reassembly can cause electric shock when the product is subsequently used.
- Do not overload wall outlets and extension cords.
- Unplug this product from the wall outlet and refer servicing to an authorized service facility under the following conditions:
 - When the power supply cord or plug is damaged or frayed.
 - If liquid has been spilled onto the product.
 - If the product has been exposed to rain or water.
 - If the product does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operation instructions. Improper adjustment of other controls may result in damage and often requires extensive work by an authorized technician to restore the product to normal operation.
 - If the product has been dropped and the telephone base and/or handset has been damaged.
 - If the product exhibits a distinct change in performance.

- Avoid using a telephone (other than cordless) during an electrical storm. There is a remote risk of electric shock from lightning.
- Do not use the telephone to report a gas leak in the vicinity of the leak. Under certain circumstances, a spark may be created when the adapter is plugged into the power outlet, or when the handset is replaced in its cradle. This is a common event associated with the closing of any electrical circuit. The user should not plug the phone into a power outlet, and should not put a charged handset into the cradle, if the phone is located in an environment containing concentrations of flammable or flame-supporting gases, unless there is adequate ventilation. A spark in such an environment could create a fire or explosion. Such environments might include: medical use of oxygen without adequate ventilation; industrial gases (cleaning solvents; gasoline vapors; etc.); a leak of natural gas; etc.
- Only put the handset of your telephone next to your ear when it is in normal talk mode.
- The power adapter is intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.
- For pluggable equipment, the socket-outlet shall be installed near the equipment and shall be easily accessible.
- CAUTION:** Use only the batteries indicated in this manual. There may be a risk of explosion if a wrong type of battery is used for the handset. Use only the supplied rechargeable batteries or replacement batteries (BT162342/BT262342) for the handset. Do not dispose of used batteries according to the instruction.
 - Do not use the battery in following conditions:
 - High or low extreme temperature during use, storage or transportation.
 - Replacement of a battery with an incorrect type that can defeat a safeguard.
 - Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
 - Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas.
 - A battery subjected to extremely low air pressure that can result in an explosion or the leakage of flammable liquid or gas.
- Use only the adapter included with this product. Incorrect adapter polarity or voltage can seriously damage the product.
- The applied nameplate is located at the bottom or rear of the product.

SAVE THESE INSTRUCTIONS

- Battery**
- Use only the battery provided or equivalent. To order a replacement, visit our website at www.phones.vtechcanada.com or call 1 (800) 595-9511. In Canada, go to phones.vtechcanada.com or call 1 (800) 267-7377.
 - Do not dispose of the battery in a fire. Check with local waste management codes for special disposal instructions.
 - Do not open or mutilate the battery. Released electrolyte is corrosive and may cause burns or injury to the eyes or skin. The electrolyte may be toxic if swallowed.

WHAT'S IN THE BOX

Your telephone package contains the following items. Save your sales receipt and original packaging in case it is necessary to ship your telephone for warranty service.

OVERVIEW

Telephone base

1 – IN USE light

- Steady on in blue when a Bluetooth headset is paired and connected to the telephone base.

SOUND SETTINGS

Key tone

You can turn the key tone on or off.

- Press **MENU** when the handset is not in use.
- Press **▼** or **▲** to scroll to **Settings** and then press **SELECT**.
- Press **SELECT** to choose **Key tone**, then press **SELECT**.
- Scroll to choose **On** or **Off**, then press **SELECT**.

Ringer tone

You can choose from different ringer tones for each handset.

- Press **MENU** when the handset is not in use.
- Press **▼** or **▲** to scroll to **Ringers** and then press **SELECT**.
- Scroll to **Ringer tone**, then press **SELECT**.
- Scroll to sample each ringer tone, then press **SELECT** to save.

- 

NOTE: If you turn off the ringer volume, you will not hear ringer tone samples.

Ringer volume

You can adjust the ringer volume level, or turn the ringer off.

- Press **MENU** when the handset is not in use.
- Press **▼** or **▲** to scroll to **Ringers** and then press **SELECT**.
- Press **SELECT** again to choose **Ringer volume**.
- Scroll to choose a volume level. A sample of each ringer volume plays as you scroll through the choices.
- Press **SELECT** to save.

NOTES:

- If you turn off the volume, the handset will be silenced and displays **Ringer off**.
- When the ringer volume is set to **Off**, the handset still rings when you press **▮FIND HS** at the telephone base.

Temporary ringer silencing

When the telephone is ringing, you can temporarily silence the ringer without disconnecting the call. The next call rings normally at the preset volume.

To silence the handset ringer:

- Press **MUTE** or **OFF**. The handset displays **Ringer muted**.

Turn on or off the call screening

Use this feature to choose whether incoming messages can be heard over the telephone base when they are being recorded. If you turn call screening on, you hear the incoming message.

- Press **MENU** when the handset is not in use.
- Press **▼** or **▲** to choose **Answering sys** and then press **SELECT**.
- Scroll to choose **Ans sys setup** and press **SELECT**.
- Press **SELECT** again to choose **Call screening**.
- Scroll to choose **On** or **Off**, then press **SELECT** to save.

Screen a call with answering system

Screen calls at the cordless handset:

If the answering system is on and a call is being answered by the answering system, the handset shows **To screen call** and press **[SELECT]** alternately. Press **SELECT** to screen the call on your handset. The handset shows **Screening...**

Option while a message is being recorded

- Press **VOLUME ▼** or **VOLUME ▲** on the handset to adjust the call screening volume.

Screen calls at the base:

If the answering system and call screening are on, the announcement and the incoming message broadcast at the telephone base when a call is answered by the answering system.

Option while a message is being recorded

- Press **VOL -** or **VOL +** on the telephone base to adjust the call screening volume.
- Press **►/PLAY/STOP** to temporarily turn on the screening if the call screening is set to off.

RETRIEVE VOICEMAIL FROM TELEPHONE SERVICE

Voicemail is a feature available from most telephone service providers. It may be included with your telephone service, or may be optional. Fees may apply.

Retrieve voicemail

If you subscribe to a voicemail service offered by your telephone service provider, the handset displays  and **New voicemail** when you received a voicemail. To retrieve, you typically dial an access number provided by your telephone service provider, and then enter a security code. Contact your telephone service provider for instructions on how to configure the voicemail settings and listen to messages.

- 

NOTE: After you have listened to all new voicemail messages, the indicators on the handset turn off automatically.

Set speed dial voicemail number

You can save the voicemail number to  1 on each handset for easy access. When you want to retrieve voicemail messages, **press and hold** 1. Contact your

Quiet mode

You can turn on the quiet mode for a period of time. During this period, all tones (except paging tone) and call screening are muted.

- Press and hold QUIET #** on the handset when it is not in use.
- Use the dialing keys (**0-9**) to enter the duration, and then press **SELECT** to save.
- To turn off the quiet mode, **press and hold QUIET #** on the handset when it is not in use.

ABOUT THE BUILT-IN ANSWERING SYSTEM AND VOICEMAIL SERVICE

For message recording, your telephone has a built-in answering system, and it also supports voicemail service offered by your telephone service provider (subscription is required, and fee may apply).

The main differences between them are:

Category	Built-in answering system	Voicemail from telephone service
Storage	Messages are stored in the telephone base.	Messages are stored in a server or system provided by your telephone service provider.
	Your messages will not be deleted automatically. You have to delete your messages manually.	Your messages may be automatically deleted after a period of time. Contact your telephone service provider for more details.
Display new message	When you received new messages, the handset displays XX new messages , and the message window on the telephone base flashes.	When you received new messages, the handset displays Msg and New voicemail .
Method to retrieve messages	To retrieve messages: - Press ►/▮ on the telephone base; or - Press MENU on the handset, and then select Play messages; or - Access remotely with an access code.	Press  on the dialpad, and enter an access number from your telephone service provider; - OR - - Press and hold  to dial if you have saved the access number.

telephone service provider for more information and assistance about your voicemail service.

- Press **MENU** when the handset is not in use.
- Press **▼** or **▲** to scroll to **Settings** and then press **SELECT**.

- Scroll to choose **Voicemail #**, then press **SELECT**.
- Use the dialing keys to enter the voicemail number (up to 30 digits), then press **SELECT**.

Clear the new voicemail indicators

If you have retrieved your voicemail while away from home, and the handset still displays the new voicemail indicators, use this feature to clear the indicators.

- 

NOTE: This feature clears the indicators only, it does not delete your voicemail messages.

- Press **MENU** when the phone is not in use.
- Press **▼** or **▲** to scroll to **Settings** and then press **SELECT**.
- Scroll to **Clear voicemail** and then press **SELECT** twice.

ECO MODE

This power conserving technology reduces power consumption for optimal battery performance. The ECO mode activates automatically whenever the handset is synchronized with the telephone base.

Option while a message is being recorded

Your cordless telephone contains sophisticated electronic parts, so it must be treated with care.

Avoid rough treatment

Place the handset down gently. Save the original packing materials to protect your telephone if you ever need to ship it.

Avoid water

Your telephone can be damaged if it gets wet. Do not use the handset outdoors in the rain, or handle it with wet hands. Do not install the telephone base near a sink, bathtub or shower.

Electrical storms

Electrical storms can sometimes cause power surges harmful to electronic equipment. For your own safety, take caution when using electrical appliances during storms.

Cleaning your telephone

Your telephone has a durable plastic casing that should retain its luster for many years. Clean it only with a dry non-abrasive cloth. Do not use dampened cloth or cleaning solvents of any kind.

NEED HELP?

For operations and guides to help you using your telephone, and for the latest information and supports, go and check the online help topics and online FAQs.

Use your smartphone or mobile device to access our online help.

GENERAL PRODUCT CARE

Taking care of your telephone

Your cordless telephone contains sophisticated electronic parts, so it must be treated with care.

New message indication

When there are new messages in the built-in answering system, the handset displays **XX new messages**, and the message window on the telephone base flashes.

Message window display	Description
	No messages.
	After a power failure, the number in the message window flashes to indicate that the date and time need to be set.
	Total number of old messages and memos recorded. The current message number during old message playback.
	- Total number of new messages and memos. The number flashes when there are new messages that have not been reviewed. - Current message number during new message playback. - After a power failure, the number in the message window flashes. - Indicate that the date and time need to be set.
	Memory is full. Messages must be deleted before new messages can be recorded.
	The telephone base speaker volume level while adjusting.
	The telephone base ringer level while adjusting.
	- The answering system is being programmed by a system handset. - The answering system is answering a call or recording a memo or announcement. - The answering system is being accessed remotely. - The directory or caller ID log is being accessed by a system handset.

TURN ON/ OFF THE ANSWERING SYSTEM

The answering system must be turned on to answer and record messages.

When the answering system is turned on, the **ON/ANS** light on the telephone base turns on and **ANS ON** displays on the handset.

Press **ON/ANS ON** on the base to turn the answering system on or off.
- OR -

- Press **MENU** when the handset is not in use.
- Press **▼** or **▲** to choose **Answering sys** and then press **SELECT**.
- Scroll to choose **Answer on/off** and then press **SELECT**.
- Scroll to choose **On** or **Off**, then press **SELECT** to save.

ANSWERING SYSTEM SETTINGS

Set your built-in answering system

The answering system can record and store up to 99 messages. Each message can be up to 3 minutes in length. The total storage capacity for the announcement, messages and memos is approximately 14 minutes. The actual recording time depends on individual message characteristics. Messages remain available for replay until you delete them.

If the answering system has less than 3 minutes of recording time left, "*Less than 3 minutes to record*" is announced before the message playback and **Rec mem** low appears on the handset screen.

If the memory is full, the answering system announces, "*Memory is full*." The number of messages and F flash, alternatively, in the message window, and **Rec mem** full appears on the handset screen. You must delete some messages before recording new ones.

Your answering system allows you to set your announcement, to save and delete messages, activate call screening, to set number of rings before pick up, and to access remotely.

Voice language

- 

NOTE: This feature is available in Canada version only.

The voice prompt language is preset to English. You can select English or French to be used for all voice prompts.

- Press **MENU** when the handset is not in use.
- Press **▼** or **▲** to choose **Settings** and then press **SELECT**.
- Scroll to choose **Voice language** and then press **SELECT**.

- Scroll to choose **English** or **Français** and then press **SELECT**.

Announcement

Your outgoing announcement plays when calls are answered by the answering system. The telephone has a default outgoing announcement, "*Hello, please leave a message after the tone.*" You can use this announcement, or record your own.

Record a new outgoing announcement:

The announcement can be up to 90 seconds in length.

- Press **MENU** when the handset is not in use.
- Press **▼** or **▲** to choose **Answering sys** and then press **SELECT**.
- Scroll to choose **Answer on/off** and then press **SELECT**.
- Scroll to choose **On** or **Off**, then press **SELECT** to save.
- The screen displays **Play [2] Del [3] Rec [7]** and it announces, "*To play, press 2. To record, press 7. Press 7 to record.*"
- The handset announces, "*Record after the tone. Press 5 when you are done.*" and it displays **Recording... Stop [5]**.
- After the tone, speak towards the handset microphone.

Press 5 when finished. The handset plays back the recorded announcement. Press 5 or **OFF** to stop the playback at any time. To listen to the recorded announcement again, wait after playback has completed, then press 2.

- 

NOTE: Announcements shorter than two seconds will not be recorded.

Play your announcement:

- Press **MENU** when the handset is not in use.
- Press **▼** or **▲** to choose **Answering sys** and then press **SELECT**.
- Press **SELECT** to choose **Announcement**.
- The screen displays **Play [2] Del [3] Rec [7]** and it announces, "*To play, press 2. To record, press 7.*" Press 2 to play the current announcement.

Options during playback:

- Press **VOLUME ▼** or **VOLUME ▲** to adjust the listening volume.
- Press 5 or **OFF** to stop at any time.

Delete your announcement:

- Press **MENU** when the handset is not in use.
- Press **▼** or **▲** to choose **Answering sys** and then press **SELECT**.
- Press **SELECT** to choose **Announcement**.
- The screen displays **Play [2] Del [3] Rec [7]** and it announces, "*To play, press 2. To record, press 7.*" Press 3 to delete your recorded announcement. The handset displays **Annnc**.

- 

deleted and announces "Announcement deleted."

- 

NOTE: After you deleted your own recorded announcement, the answering system answers calls with the default announcement.

Set number of rings

You can set the answering system to answer an incoming call after two, three, four, five or six rings, or select toll saver.

If you choose toll saver, the answering system answers a call after two rings when you have new messages, or after four rings when you have no new messages. This enables you to check for new messages and avoid paying unnecessary long distance charges if you are calling from outside your local area.

- Press **MENU** when the handset is not in use.
- Press **▼** or **▲** to choose **Answering sys** and then press **SELECT**.
- Scroll to choose **Ans sys setup** and then press **SELECT**.
- Scroll to choose **# of rings** and then press **SELECT**.
- Scroll to choose from **2, 3, 4, 5, 6** or **Toll saver**, then press **SELECT** to save.

Turn on or off the message alert tone

When the message alert tone is set to on, and there is at least one new message, the telephone base beeps every 10 seconds. The tone stops when all new messages have been reviewed.

- Press **MENU** when the handset is not in use.
- Press **▼** or **▲** to choose **Answering sys** and then press **SELECT**.
- Scroll to choose **Ans sys setup** and press **SELECT**.
- Scroll to choose **Msg alert tone** and press **SELECT**.
- Scroll to choose **On** or **Off**, then press **SELECT** to save.

- 

NOTE: The message alert tone beeps only if all the following conditions are met.

- Answering system is on.
- Message alert tone setting is on.
- There are new messages.

Playback messages

You can listen to messages at the telephone base or on a cordless handset. When playback begins, the total number of messages is annouced. Before each message, you hear the day and time of the recording. After the last message, you hear, "*End of messages.*" Make sure you set the date and time correctly. Refer to **Set date and time** for more details.

To listen to messages at the base:

- Press **►/PLAY/STOP** when the phone is not in use. When you have no message in the answering system, the telephone base announces, "*You have no message.*"

Options during playback

- Press **VOL -** or **VOL +** to adjust the listening volume.
- Press **►/SKIP** to skip to the next message.
- Press **►/REPEAT** to repeat the playing message. Press **►/REPEAT** twice to listen to the previous message.
- Press **X/DELETE** to delete the playing message. The telephone base advances to the next message.
- Press **►/PLAY/STOP** to stop the playback.

To listen to messages with the handset:

- Press **MENU** when the handset is not in use. The handset displays **Play messages**.
- Press **SELECT**. If you have either new or old messages, the messages play automatically.
 - The system announces the number of messages, and then begins playback. The message sequence is shown on the handset's screen.
- Press **OFF** to stop the playback.

Options during playback

- Press **VOLUME ▼** or **VOLUME ▲** to adjust the listening volume.
- Press **6** to skip to the next message.
- Press 4 to repeat the playing message. Press 4 twice to listen to the previous message.
- Press 3 to delete the playing message. The telephone base advances to the next message.
- Press **OFF** to stop the playback.

Delete all messages

Using the base

- Press **X/DELETE** when the telephone is not in use. The telephone announces, "*To delete all old messages, press X/DELETE again.*"
- Press **X/DELETE** again. All previously reviewed messages are erased and the telephone announces - *All old messages deleted.*

Using the handset

- Press **MENU** when the handset is not in use.
- Press **▼** or **▲** to choose **Answering sys** and then press **SELECT**.
- Scroll to choose **Delete all old** and then press **SELECT**.
- Press **SELECT** to confirm. The handset displays **Deleting...** and then **No old messages**. It returns to the previous menu, and you hear a confirmation tone.

Answering system remote access

You can reach your answering system remotely by dialing your home telephone number from any touch-tone telephone.

- Dial your telephone number from any touch-tone telephone.
- Once the system plays your announcement, enter the two-digit remote access code (**19** is the default code).
 - The system automatically announces the number of new or old messages (if any), and then begins to play them.

You can also enter the following remote commands.

Command	Description
1	Play all messages.
2	Play only new messages.
3	Delete the current message (during playback).
33	Delete all old messages.
4	Repeat the current message (during playback).
5	Stop.
*5	Hear a list of remote commands.
6	Skip to the next message (during playback).
*7	Record a new announcement.
8	End the call.
0	Turn the answering system on or off.

- Hang up or press **8** to end the call.

NOTES:

- If you do not press any key after you enter the remote access code, all new messages play. If there are no new messages, all old messages play.
- Once the new messages have played, the telephone announces the help menu options. If you do not press any key within 20 seconds, the remote access call automatically disconnects.
- When the answering system is turned off, the telephone answers after 10 rings, and announces, "*Please enter your remote access code.*"
- When the memory is full, the answering system answers incoming calls after 10 rings and announces, "*Memory is full. Enter your remote access code.*"

Change remote access code

- Press **MENU** when the handset is not in use.
- Press **▼** or **▲** to choose **Answering sys** and then press **SELECT**.
- Scroll to choose **Ans sys setup** and press **SELECT**.
- Scroll to choose **Remote code** and press **SELECT**.
- Use the dialing keys to enter a two-digit number.
 - **OR** -
 - Scroll to a desired two-digit number.
- Press **SELECT** to confirm.

Call intercept while using answering system

When a caller is leaving a message on your answering system, you can stop recording and talk to the caller by pressing  on the handset.

Recording memo

Memos are your own recorded messages used as reminders for yourself or others using the same answering system. You can record your own memos using a system handset. Playback and delete them in the
