

A white, circular, multi-tiered electronic device is shown against a black background. The device has a central cylindrical component covered in a fine metal mesh. A white plastic cap with four small tabs is positioned over the mesh. A small white label is attached to the cap, containing the following text: DSC UA328, model WLS916-433, 10 April 2002, and Functional unit #2. The device has a wide, flat base and a smaller, raised section in the center.

DSC UA328
model WLS916-433
10 April 2002
Functional unit #2
