Santa Clara, CA 95054

Dear Sir or Madam:

Since the Digivance Remote Interface Unit is a low power device that is not hand-held and it's antenna would rarely be within 20 cm of an individual, we are in compliance with SAR requirements.

In addition, the following statement is in our installation manual:

To comply with Maximum Permissible Exposure (MPE) requirements, antennas must be installed to provide at least 20 centimeters of separation from all persons per FCC 47CFR Part 2.1091.

Sincerely,

A handwritten signature in black ink, appearing to read 'Gary Spedaliere', with a stylized flourish at the end.

Gary Spedaliere
