

EMERSON

July 10, 2001

Federal Communications Commission
Authorized and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

Gentlemen:

Emerson Air Comfort Products Division will implement the following modification during manufacturing:

- 1) Change R9 from 300K Ohms to 470K Ohms

Sincerely,

A handwritten signature in black ink, appearing to read "D. R. Lathrop", written over a faint, larger signature.

David R. Lathrop
Engineering Manager
