Re: Request for Withholding From Public Disclosure Proprietary Information
Submitted Pursuant to an Application for Certification of Schlumberger
Resource Management Services, Inc. Centron with RMR, FCC ID:
F9CC1R-1

To whom it may concern:

In regard to the submission for FCC certification of the Schlumberger Resource Management Services, Inc. device which is the subject of the application for certification identified above, Schlumberger Resource Management Services, Inc. hereby respectfully requests, under the provisions of 47 CFR 0.459 that the four (4) pages including schematic diagrams, block diagrams, and technical product description of the device which is the subject of the application, and which are submitted with the application, be held under confidential status. This exhibit should be referenced when reviewing Schlumberger RMS, Inc's application for certification.

The schematic diagrams, block diagrams, and technical product description of the device contain trade secrets of the applicant, as set forth in Section 552(b)(4) of the Freedom of Information Act (Title 5, U.S. Code), and as provided for in 47 CFR 0.457(d).

In particular, the schematic diagrams, block diagrams, and technical product description include proprietary coding, timing, and design information of the applicant. In addition, as the application relates to a device used for the automatic reporting of utility metering data, the information contained in the schematic diagrams, block diagrams, and technical product descriptions could be used improperly to tamper with such equipment and could permit one with knowledge of the information to alter such readings, resulting in both operational errors and/or theft of utility services.

Respectfully submitted,

Leonard Pejunas
Intellectual Property Counsel
