

Description of Transaction

On July 17, 2000, we notified the Commission, pursuant to section 2.929(d) of the Commission's rules, 47 C.F.R. § 2.929(d), of the transfer of the equipment authorizations listed below from CellNet Data Systems, Inc. ("CellNet") to Schlumberger Resource Management Services, Inc. ("SRMS").

On May 16, 2000, SRMS consummated its purchase of the assets of CellNet. Accordingly, all equipment authorizations under CellNet's grantee code, H6N, should be transferred to SRMS. SRMS is presently a grantee of equipment authorizations, with grantee code F9C, that are used for purposes very similar to the CellNet authorizations. Specifically, both Schlumberger and CellNet have manufactured equipment designed to provide automatic utility meter reading services using fixed and mobile data networks. Therefore, SRMS can adequately ensure and accept responsibility for continued compliance of the CellNet authorizations with the FCC's regulations.

Pursuant to FCC staff instruction from Mr. Richard Fabina, we have prepared a separate Form 731 application for each FCC ID number. We are also submitting a single fee, in the amount of \$940, with the first application, which serves to cover all application fee requirements with respect to all FCC ID numbers involved with this transaction.

The following equipment authorizations are to be transferred to SRMS:
