Attention: Ted Chaffee

We have reviewed the application for certification authorization which was submitted to Elite.

Upon review of your application it was determined that additional information is required to complete the application for certification authorization. The additional information required is listed below:

Administrative Review

1. Exhibit A: FCC ID label photograph and/or drawing.

The FCC ID number presented to Elite in Exhibit A and the application do not match. Clarification is required as to why Exhibit A and the application show two different FCC ID numbers. The assumption was made that a typo was made on Exhibit A. A corrected Exhibit A would be sufficient in correcting this issue.

The application for certification authorization cannot continue until all information requested above is returned to Elite.

The status of your application for certification authorization has been placed on hold for a period of 30 days. During this time Elite will be happy to answer any questions or assist in any way possible for a successful grant of certification authorization. At the conclusion of the allotted 30 day period, Elite reserves the right to dismiss your application for certification authorization if no reply to this inquiry is received.

Sincerely,

A handwritten signature in black ink, appearing to read "D. E. Crowder".
