Subject: Re : TCB Review Comments for (A06-0525c- FDI-09102044-0- Buffalo 11nPCIAAdapter)

Dear Steve

Pls see our reply as below:

TCB Review Comments for (A06-0525c- FDI-09102044-0- Buffalo 11n PCI Adapter)

-EMC-

Question #1: P6 of test report, could 11g work on dual chain too? If not please modify the description. If yes, please supply test data.

(Embedded image moved to file: pic26500.gif)

ANS: The device can use only single chain in 11bg modes, please refer to revised test report.

Question #2: Please revise test report, especially on power and PSD test, to have clearer test method and power combination scheme.

ANS: Test report and RF Exposure report had been revised.

Thanks for your assistance!

Best Regards
Wendy Liao
