Re: Certification application for FCC ID: FJG-DL7200RFL

Gentlemen:

Spectrum Technology, Incorporated has tested this Intentional Radiator in accordance with the requirements contained in the Part 15 of Title 47 CFR. To the best of my knowledge, these tests were performed using the criteria established in ANSI C63.4, 1992 and demonstrates that the equipment complies with the published standard. The applicable Part 15 rule sections are listed in the following test report.

The Open Area Test Site used for these measurements is located at Fluke Park II, Everett, Washington. Site information required by Public Notice 24541 in accordance with ANSI C63.4-1992 was filed with the FCC Authorization and Evaluation Division Sampling and Measurements Branch in July 1994 and renewed in January 1998.

Sincerely,

Rod Munro  
President  
Spectrum Technology, Inc.
