FCC NOTICE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures;

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

8231A KEYBOARD SPECIFICATIONS

Structure

Structure : 100% Mechanical Switch (—Mechanical)

Keystroke Travel : 3.0mm±0.3mm (0.15"±0.02")

Actuation Force : 60g 2.0 oz

Reliability : $\geq 10 \times 10^6$ MCBF

Electron

~~Out~~ Voltage : +5Vdc 0.25v @300mA Max.

Key Rollver : Multi-Key rollover

Out Code : Synchronous 8bit

Environmerntal

Operational Temperature : -10 to 60°C

Operational Humidity : 10%-85%RH At 40°C

Storage Temperature : -20 To 70°C

Storage Humidity : 5%-95%RH At 40°C

Address : Xin Qiao 3rd Industrial Estate Sha Jing.
