Dear Helen,

Ans#1: We have add the statement in the the user manual.
Ans#2: According to the regulations for the product, we must not test for this frequency range.
We have deleted this statement for your reference.

Best Regards,

Iris Lin

Question #1: The user manual does not contain user information as specified in FCC15.19. Please update the user manual.

Question #2: The report (page 11 of 18) indicates "b) Emission frequencies above 1 GHz Radiated emission frequencies above 1 GHz to 25 GHz were too low to be measured with a pre-amplifier of 35 dB."

Please verify if it is true you evaluate emission upto 25GHz for this 27.045 MHz device.

Best Regards,
Helen Zhao

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be

directed to
the e-mail address listed below the name of the sender.
