Federal Communications Commission (FCC) Notice

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installations, if this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient / Relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that the receiver is connected.
4. Consult the dealer or an experienced radio / TV technician for help.

CAUTION: Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

Disclaimer

The following does not apply to any country where such provisions are inconsistent with local law:

KYE Systems Corp. makes no warranties with respect to this documentation, whether expressed or implied. All material is provided "as is". This includes, but is not limited to, any implied warranties of merchantability and fitness for a particular purpose. The information covered in this document is subject to change without notice. ENGLISH

Hardware Installation

1. Install two AAA batteries in this game device.
2. This game device provides two separate channels (CH.1 and CH.2). Please make sure the device and the receiver are using the same channel.

3. Connect the receiver to a USB port.

Warning:

1. This game device with radio frequency gives you free action and an enjoyable experience. For optimal performance, place the receiver at least 8 inches (about 20 cm) away from other electrical devices, such as the computer, monitor, and etc.
2. If you feel this game device does not move smooth as usual, then the batteries have lost their charge, so please replace them.
3. Please do not use the Wireless game pad with a 27MHz wireless mouse or a 27MHz wireless keyboard and mouse kit at the same time, especially when playing a game. If you do, you will encounter interference between the devices.

**Software Installation**

Once you plug in the USB device, *Windows XP/Me/2000/98* will detect it and install the driver automatically. You have to calibrate your game controller before you play any game. Click **Start / Setting / Control Panel** and double click on the "Game Controller" icon.
