HOW TO SETUP:

PC, Laptops, Macbook Pro/Air

1. Connect the computer device, power it on automatically, and there will be an input mode prompt sound after power on. Click the "knob" to switch to the USB sound card input mode. **Note:** This device comes with power-off and shutdown memory.
2. Fix settings: On your computer, select Control Panel/System Preferences> Sound Settings>Output, and then choose the output device speaker "SoundBar 220BT".

Cellphone, iPad, and Mobile Devices (Bluetooth Mode)

1. Computer equipment/5V adapter/power bank, etc.: It automatically turns on when powered on, and there is an input mode prompt sound after turning on. Click the "knob" to switch to Bluetooth mode. **Note:** This device comes with power-off and shutdown memory.
2. Open the Bluetooth device menu, turn on Bluetooth and search for Bluetooth devices; Click on "SoundBar 220BT" in the list of devices found, and when you hear the "connect" prompt sound, the pairing is successful.

Please Note: This speaker uses USB decoding. If there is no sound (not in mute mode) when playing music after connecting the speaker to your computer, please adjust the settings as follows: Open your computer's Control Panel/System Preferences > Sound Settings > Select "SoundBar 220BT" as the audio output - Save the changes.

FCC Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications made without explicit approval from the responsible party in compliance may result in the user being unauthorized to operate the device.

This device meets the FCC radiation exposure limits for uncontrolled environments. To ensure safe installation and operation, maintain a minimum distance of 20cm between the radiator and your body.
